ABOUT THE CENTRE

The primary purpose of the Centre for Data & Analysis on Psychology Licensure (the Centre) is to support psychology licensing boards in making informed licensure decisions through consistent data collection, analysis and reporting. With this first publication of ASPPB InFocus and the launch of the Centre, ASPPB wants to thank our member boards for their participation and we look forward to continued collaboration in the collection and analysis of data for the regulation of the profession of psychology.

ABOUT THE DATA

This is the first edition of ASPPB InFocus and the Centre will continue to identify data points and modify data displays for future publications. The data presented in this publication is derived from several sources:

ASPPB Data Repositories

1. PSY|Book- ASPPB's online reporting tool for licensure requirements. Representatives from the psychology licensing boards complete an annual survey regarding the licensing requirements specific to each jurisdiction. ASPPB does not alter the responses to the survey. The data displayed in this publication represents all survey information gathered at time of publication. ASPPB recommends confirming specific data points directly with the psychology licensing boards prior to making licensure or regulatory decisions.

2. ASPPB Membership Data

3. ASPPB EPPP Candidate Tracking

4. ASPPB Disciplinary Data System

Psychology Interjurisdictional Compact (PSYPACT)

PSYPACT data is provided by the PSYPACT Commission. Data presented regarding PSYPACT is current through December 31, 2021. ASPPB recommends contacting PSYPACT staff or visiting www.psypact.org for the most current information.

Welcome to ASPPB InFocus 2020

In today's regulatory environment, psychology licensing boards are facing an increasing number of barriers in ensuring that standards and regulatory mechanisms remain aligned with the evolving needs of the profession and their mandate to protect the public from harm. These barriers have included items such the inconsistencies in licensure requirements, the lack of a psychology workforce data and challenges related to the nature of the legislative process.

ASPPB has recognized the importance of using business intelligence to analyze data and discover meaningful metrics that will work toward eliminating these barriers. Through the founding of a psychology licensure focused research center, the Centre for Data & Analysis on Psychology Licensure, ASPPB has been working diligently to create a system for data collection and analysis that will provide timely and relevant data to assist psychology licensing boards in making future licensure strategy decisions with a particular focus on licensure portability and telehealth.

As the result of the hard work of ASPPB staff and with the funding and partnership with the Health Resources and Services Administration of the U.S. Department of Health and Human Services, it is with great enthusiasm that I present you with the first edition of ASPPB InFocus. ASPPB InFocus is an annual publication that will provide timely and relevant information to licensees, educators and policy makers on the current status of the profession and assist in forecasting future needs. ASPPB InFocus represents a culmination of data points collected through the Centre, which provides information on trending data regarding the number of licensees, jurisdictional licensure requirements, licensure portability and the interjurisdictional utilization of telepsychology. Also included are state and provincial specific data which provides a breakdown of licensure requirements and a snapshot of the patterns and current composition of the licensed psychology workforce.

Thank you for taking the time to review this issue of ASPPB InFocus. We hope you will also take a minute to let us know what your thoughts are about this edition as we continue to finesse the contents of this publication going forward.

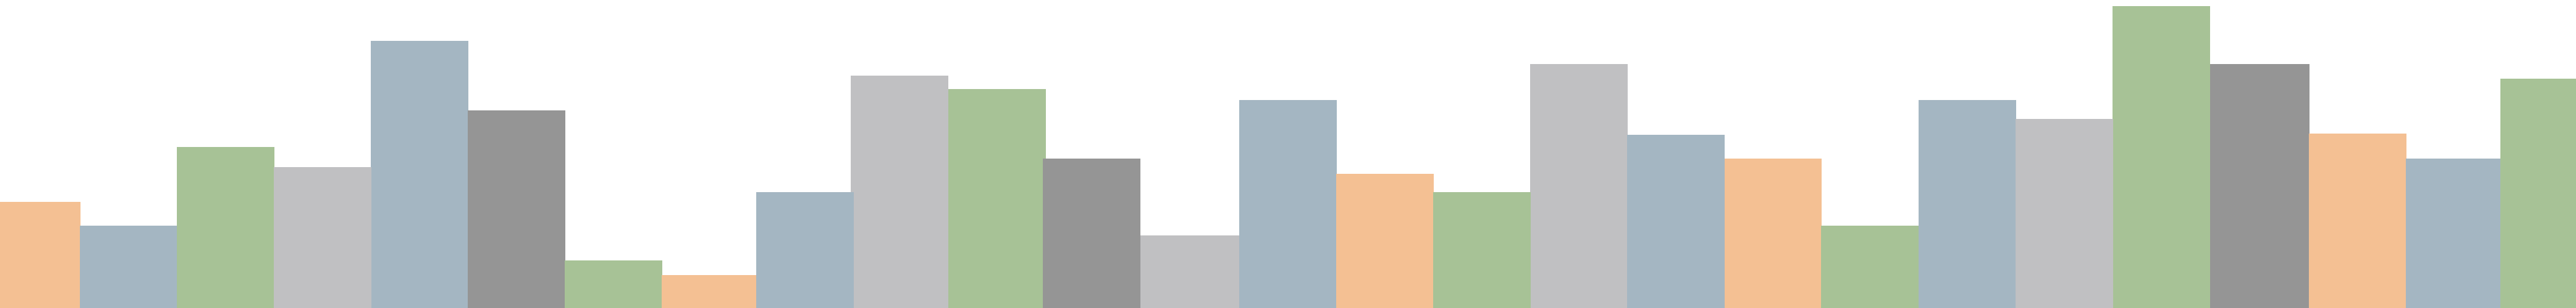

Sincerely,

Mariann Burnetti-Atwell, PsyD
Chief Executive Officer, ASPPB

SPOTLIGHT

Big picture view of psychology licensure in the United States and Canada with a spotlight on number of licenses, education, supervised experience, exams, fees, renewals, continuing education/continuing professional development and other pertinent information about psychology licensure.

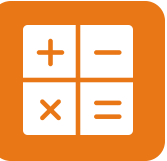

NUMBER OF LICENSES

Psychology licensing boards are responsible for governing the practice of psychology in their state, province or territory. In order to practice as a psychologist in the U.S. and Canada, a psychologist must obtain an active license to practice psychology from their state or provincial psychology licensing board. Each year, ASPPB surveys the psychology licensing boards regarding the numbers of licenses they maintain and issue. The following information displays data from the number of licenses maintained and issued in 2020 by respondents.¹

As noted in the previous data displays, psychology licensing boards issue multiple types of licenses and the licensing requirements for each type of license varies. The following data focuses on licensure requirements for practicing as a psychologist in the United States and Canada. Please submit an inquiry to the Centre or visit the psychology licensing board websites for additional information on types of licenses.

EDUCATION

In order to practice independently as a psychologist in the U.S. and Canada, the prevailing standard is that a psychologist must have obtained a doctoral degree in psychology. The **majority of respondents (91%)** accept programs accredited by the American Psychological Association (APA)² or the Canadian Psychological Association (CPA)³ but also allow for other alternatives. Additionally, **most respondents (91%)** require regional accreditation⁴ of the degree granting institution. 2020 data also reveals **a little over half of respondents (58%)** have a residency requirement.⁵

SUPERVISION

Supervised experience is a key requirement in the path to becoming a licensed psychologist. Depending on jurisdictional requirements, the composition of supervised experience hours can be met via practicum, internships, or postdoctoral experience. **One-third of respondents** accept practicum experience while **almost three-quarters of respondents** require internship and/or postdoctoral experience to satisfy supervised experience requirements.

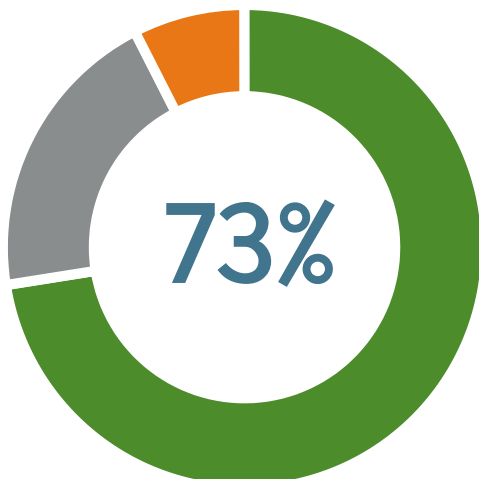

PRACTICUM

OF 38 RESPONDENTS **ACCEPT PRACTICUM HOURS FOR LICENSURE**

The remaining **66%** of respondents do not accept practicum hours for licensure with **5** respondents indicating practicum hours were "Not Applicable".

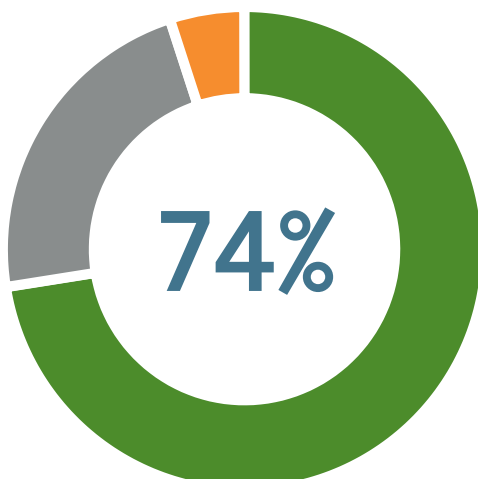

INTERNSHIP

OF 40 RESPONDENTS **REQUIRE INTERNSHIP HOURS FOR LICENSURE**

20% of respondents accept internship hours for licensure and **7%** of respondents indicated "Other" with **3** respondents indicating internship hours were "Not Applicable".

POSTDOCTORAL EXPERIENCE

OF 39 RESPONDENTS **REQUIRE POSTDOCTORAL EXPERIENCE HOURS FOR LICENSURE**

23% of respondents accept postdoctoral experience hours for licensure and **3%** of respondents indicated "Other" with **4** respondents indicating postdoctoral experience hours were "Not Applicable".

EXAMINATIONS

Approximately 98% of respondents require the EPPP (Part 1 - Knowledge) as a requirement to obtain a license to practice as a psychologist. Some respondents also require applicants for licensure take an oral examination (37%) with a larger proportion of respondents requiring applicants for licensure take a jurisprudence examination (68%) specific to their jurisdiction's statutes and rules and regulations.

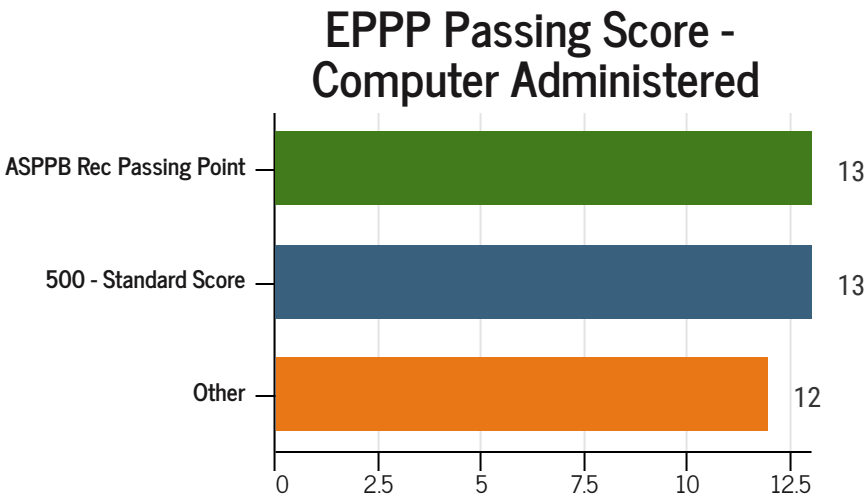

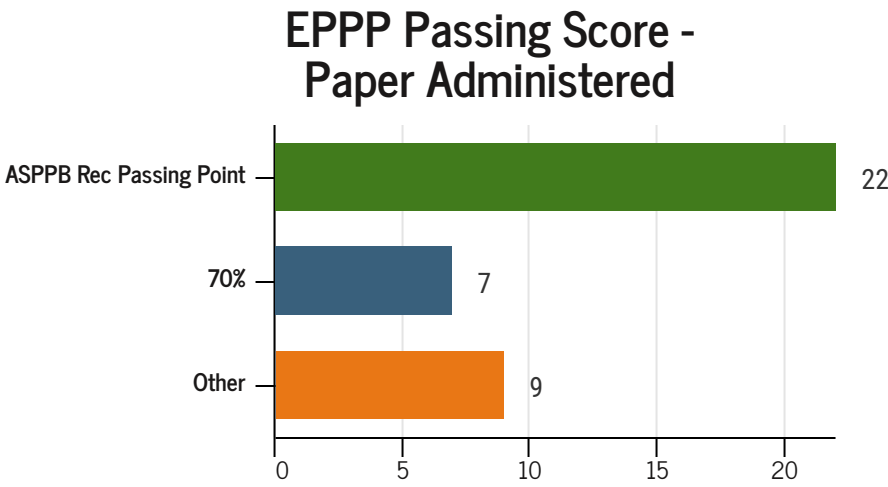

42 out of 43 Respondents require the EPPP (Part 1 - Knowledge)

16 out of 43 Respondents require an Oral Exam

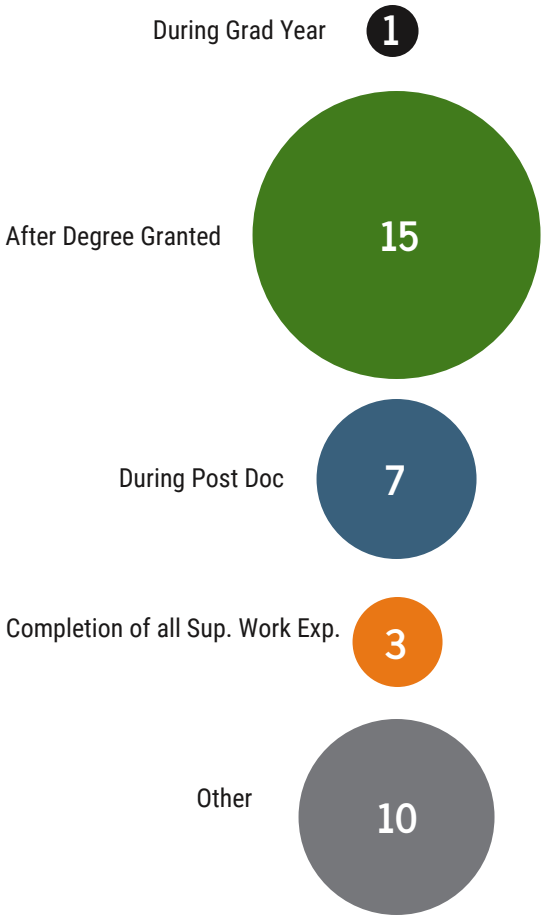

28 out of 41 respondents require a Jurisprudence Exam

The EPPP (Part 1 - Knowledge) is developed and owned by ASPPB and is provided to psychology licensing boards to assist them in their evaluation of the qualifications of applicants for licensure. Initially, the EPPP (Part 1- Knowledge) was administered via paper form and the largest proportion of respondents use the ASPPB Recommended Passing Point as the definition of a passing score in their rules/regulations. Starting in April 2001, the EPPP (Part 1 - Knowledge) was administered via computer. For the computer-administered EPPP (Part 1 - Knowledge), most respondents either use the ASPPB Recommended Passing Point or 70% as the definition of a passing score in their rules/regulations. Additionally, 15 out 36 respondents allow applicants to take the EPPP (Part 1 - Knowledge) after their degree has been granted.

TEMPORARY PRACTICE

Temporary practice is defined by ASPPB as when an individual licensed to practice psychology at the doctoral level in one jurisdiction may practice psychology into another jurisdiction for a specific period of time without obtaining full licensure. Though requirements vary by jurisdiction, **35 out of 43 respondents** authorize temporary practice through one of the methods listed below.⁷

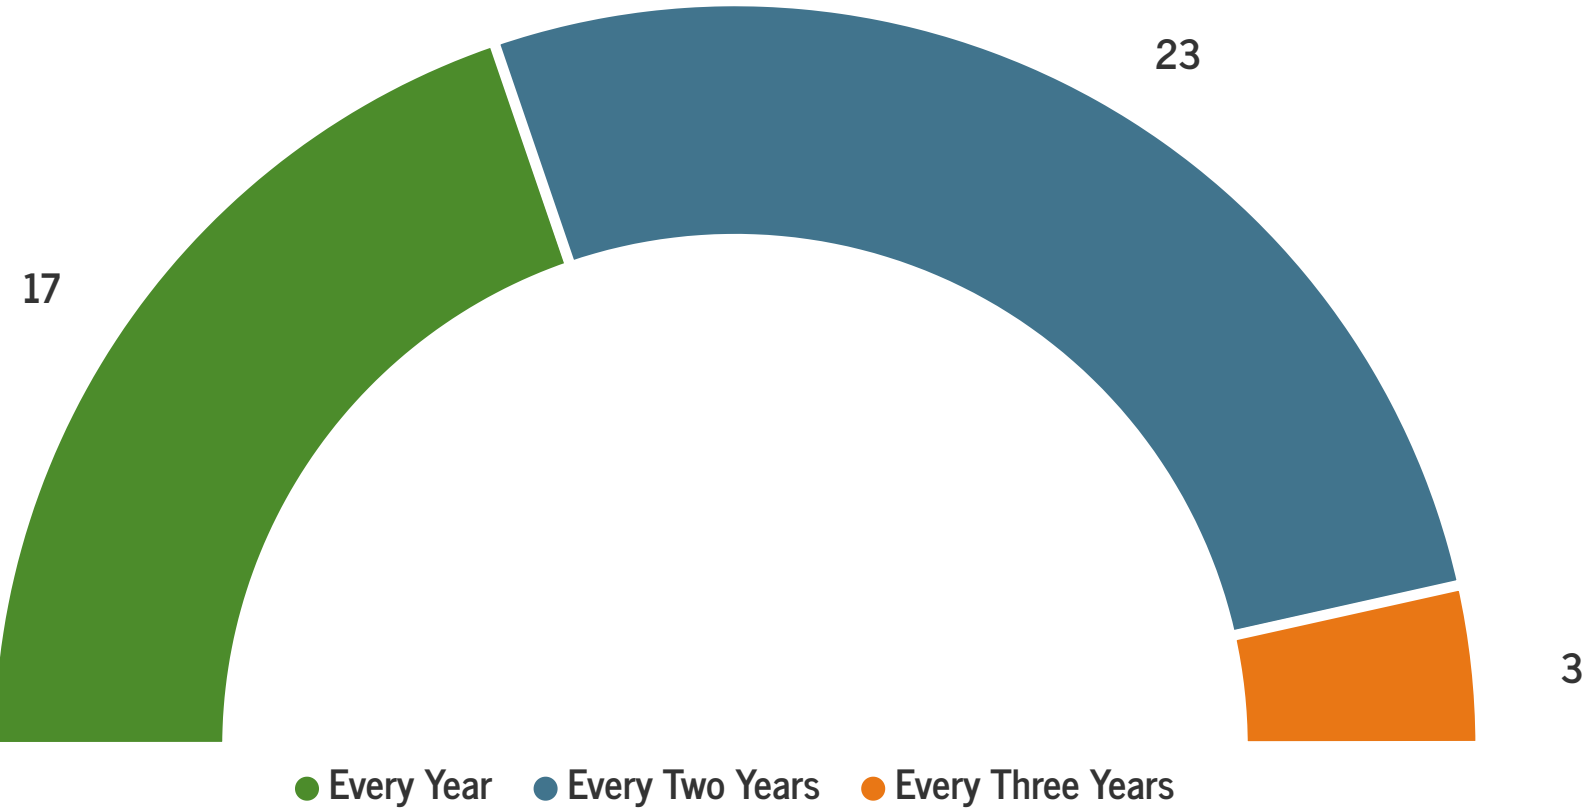

Important Note: PSYPACT and Temporary Practice⁸

The Psychology Interjurisdictional Compact (PSYPACT) is an interstate compact designed to facilitate the practice of telepsychology and the temporary in-person, face-to-face practice of psychology across state lines in PSYPACT participating states. For temporary practice under the authority of PSYPACT, psychologists licensed in PSYPACT participating states can apply to practice temporarily up to 30 calendar days per calendar year in each PSYPACT state. Data in this section is not reflective of PSYPACT participating states. For more information about PSYPACT, visit the Focus: PSYPACT section of this publication.

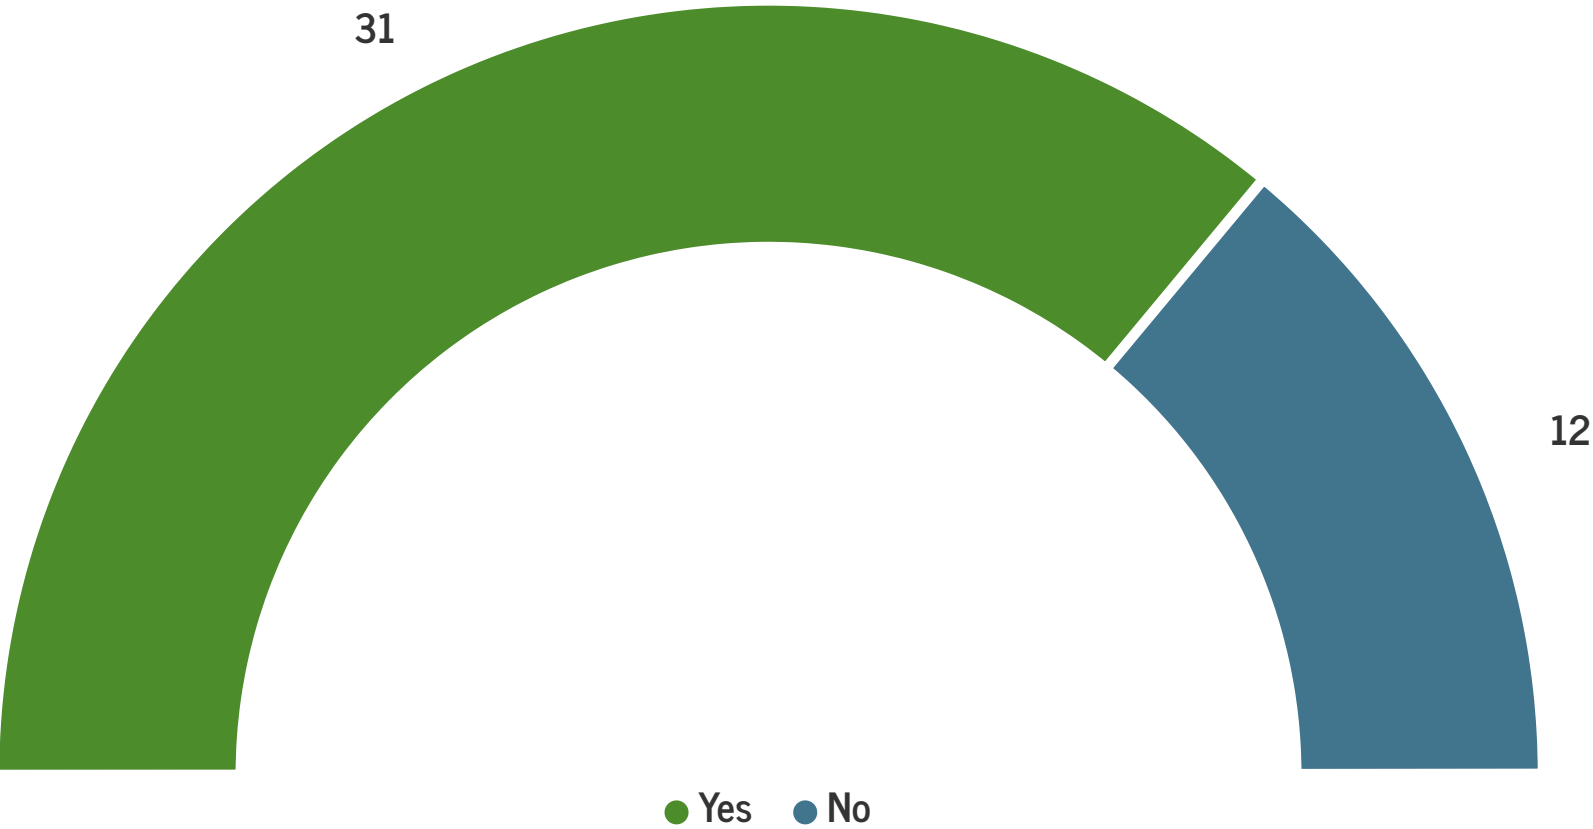

LICENSE RENEWALS

In order to maintain a license to practice, psychologists must renew their license on a schedule set by the psychology licensing boards. The largest proportion of respondents require licenses be renewed every two years (53%).

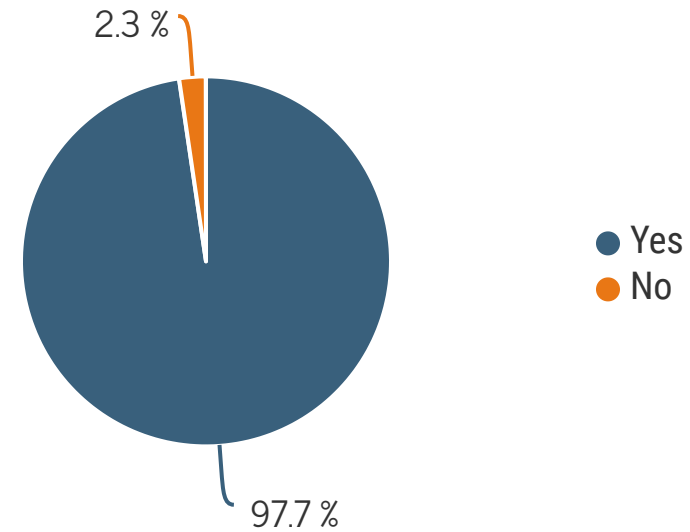

INACTIVE LICENSES

Approximately 72% of respondents provide for an inactive license status. A psychologist who holds an inactive license may not practice psychology but may continue to use the title “psychologist”. A psychologist who holds an inactive license continues to be subject to the statutes and rules/regulations of the psychology licensing board.

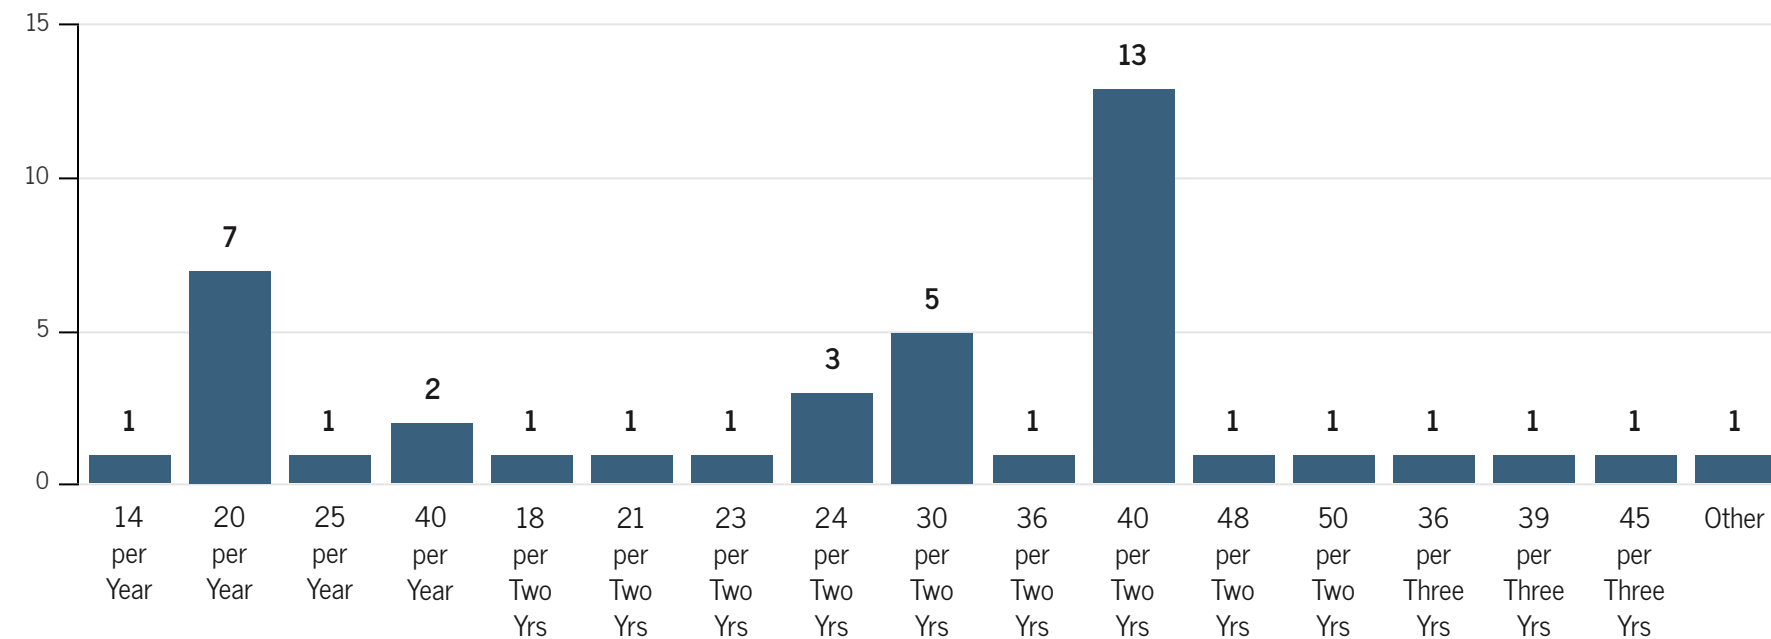

CONTINUING PROFESSIONAL DEVELOPMENT/ CONTINUING EDUCATION

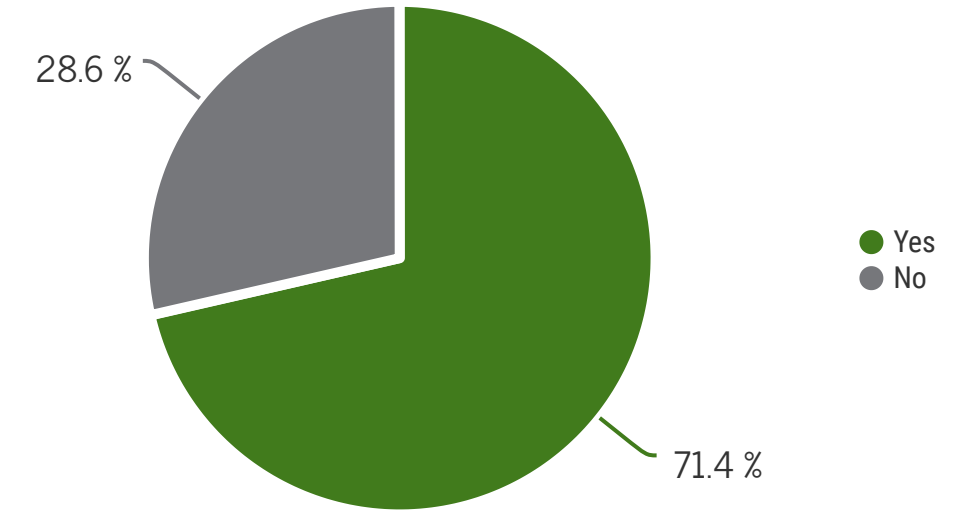

Almost all respondents **require** their licensees to complete continuing professional development /continuing education each renewal cycle.

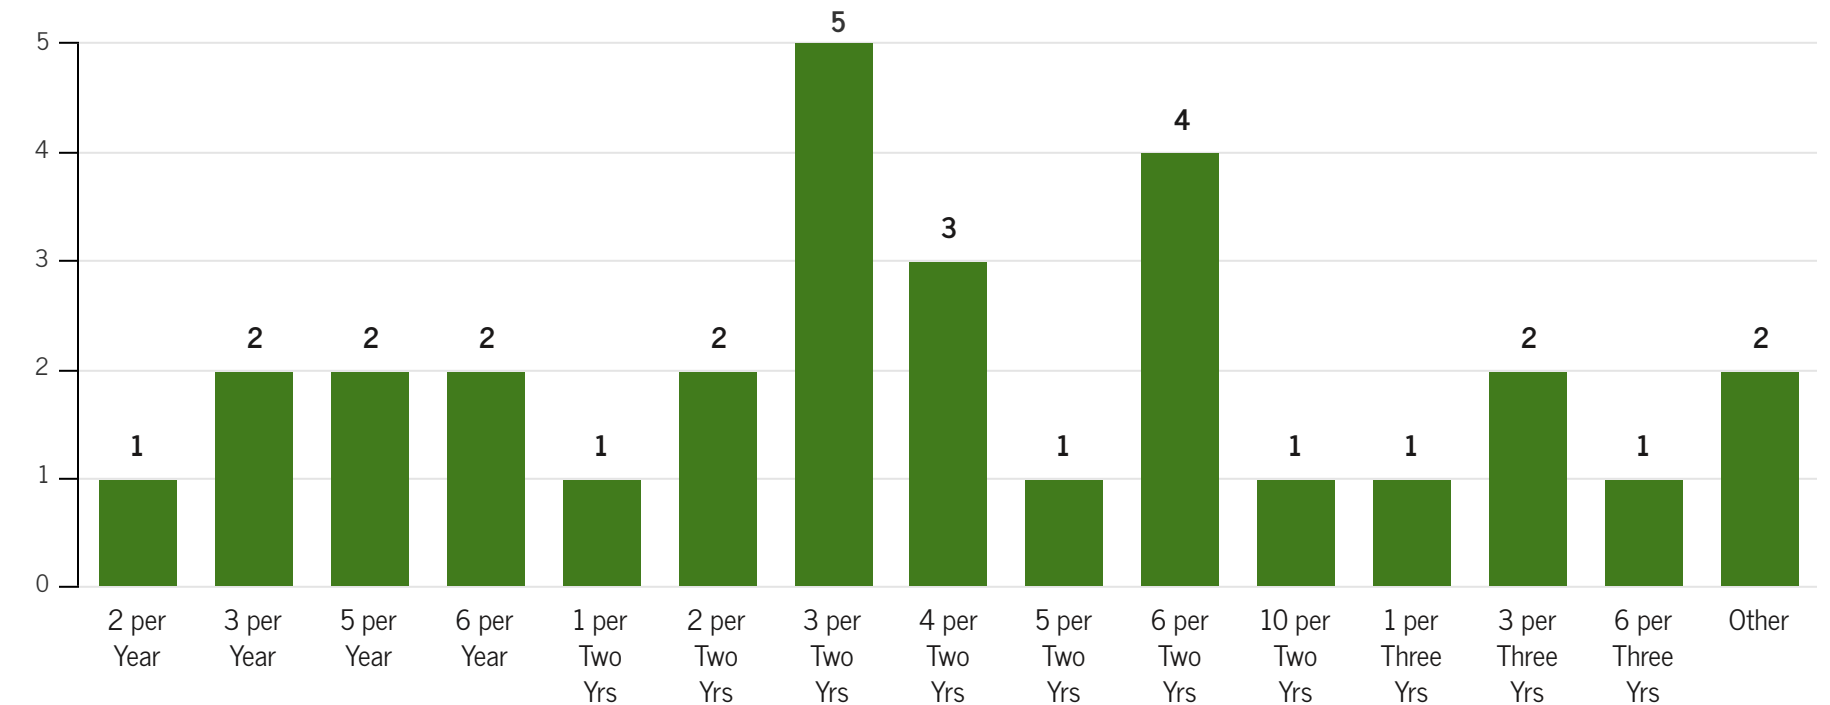

Number of Hours of CPD/CE Required in Each Renewal Period

Over **70%** of respondents **require** that a portion of a psychologist's CPD/CE hours be in Ethics.

PRESCRIPTIVE AUTHORITY

In some jurisdictions, a licensed psychologist may obtain the authority to prescribe medications if the psychologist has met certain requirements.

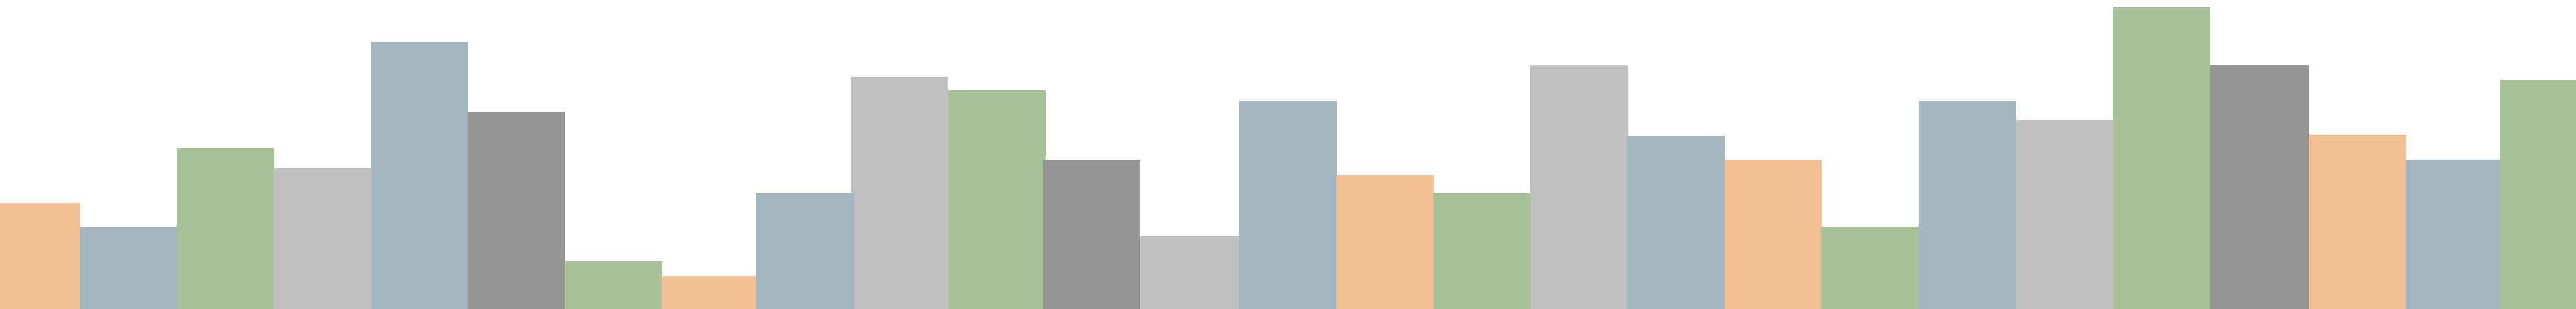

3 out of 43

respondents can issue prescriptive authority to licensed psychologists. Of those 3 respondents, 2 include prescriptive authority under the authority of the psychology licensing board. Issuance of prescriptive authority may be under the authority of a different regulatory agency in other jurisdictions.

FOCUS: PSYPACT

Focusing in on the Psychology Interjurisdictional Compact (PSYPACT)¹, an interstate compact designed to facilitate the practice of telepsychology and the temporary in-person, face-to-face practice of psychology across state boundaries in PSYPACT participating states. With applications officially opened in July 2020, PSYPACT provides licensed psychologists the opportunity to increase access to mental healthcare services while giving states a mechanism to enhance their ability to protect the health and safety of the public.

PSYPACT PSYCHOLOGY INTERJURISDICTIONAL COMPACT

About PSYPACT

The Psychology Interjurisdictional Compact (PSYPACT) is a mutual recognition interstate compact designed to facilitate the interstate practice of telepsychology and/or the temporary in-person-face-to-face practice of psychology in PSYPACT states.

PSYPACT Commission

The PSYPACT Commission is the governing body responsible for its oversight and creation of Rules and Bylaws.

Practicing Telepsychology

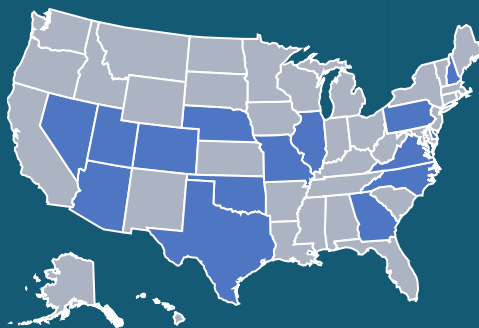

In order to practice telepsychology under the authority of PSYPACT, the PSYPACT Commission requires that a psychologist obtain an Authority to Practice Interjurisdictional Telepsychology (APIT). One requirement of the APIT is the ASPPB E.Passport.

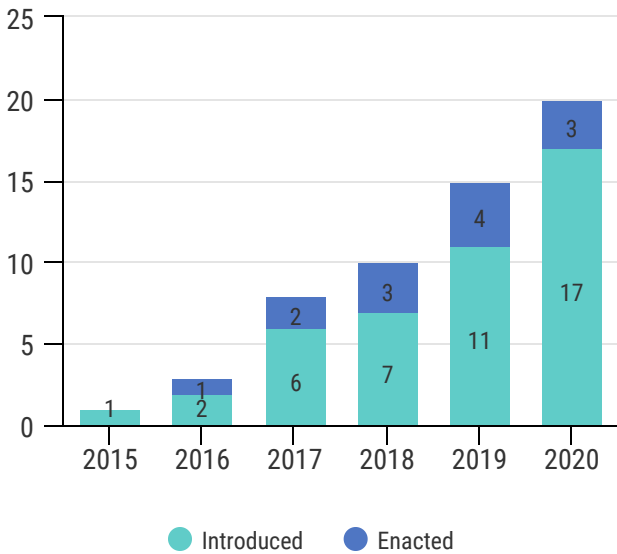

PSYPACT States

Arizona Missouri Pennsylvania
Colorado Nebraska Texas
Delaware Nevada Utah
Georgia New Hampshire Virginia*
Illinois Oklahoma North Carolina*

* Effective 1/1/2021 and 3/1/2021, respectively

Introduced vs. Enacted Legislation by Year

Practicing Temporarily

In order to conduct temporary practice under the authority of PSYPACT, the PSYPACT Commission requires that a psychologist obtain a Temporary Authorization to Practice (TAP). One requirement of the TAP is the ASPPB Interjurisdictional Practice Certificate (IPC).

FOCUS: EPPP

Focusing in on the Examination for Professional Practice in Psychology (EPPP)¹, developed and owned by ASPPB since 1963. The EPPP is provided to state and provincial boards of psychology to assist them in their evaluation of the qualifications of applicants for licensure and certification.

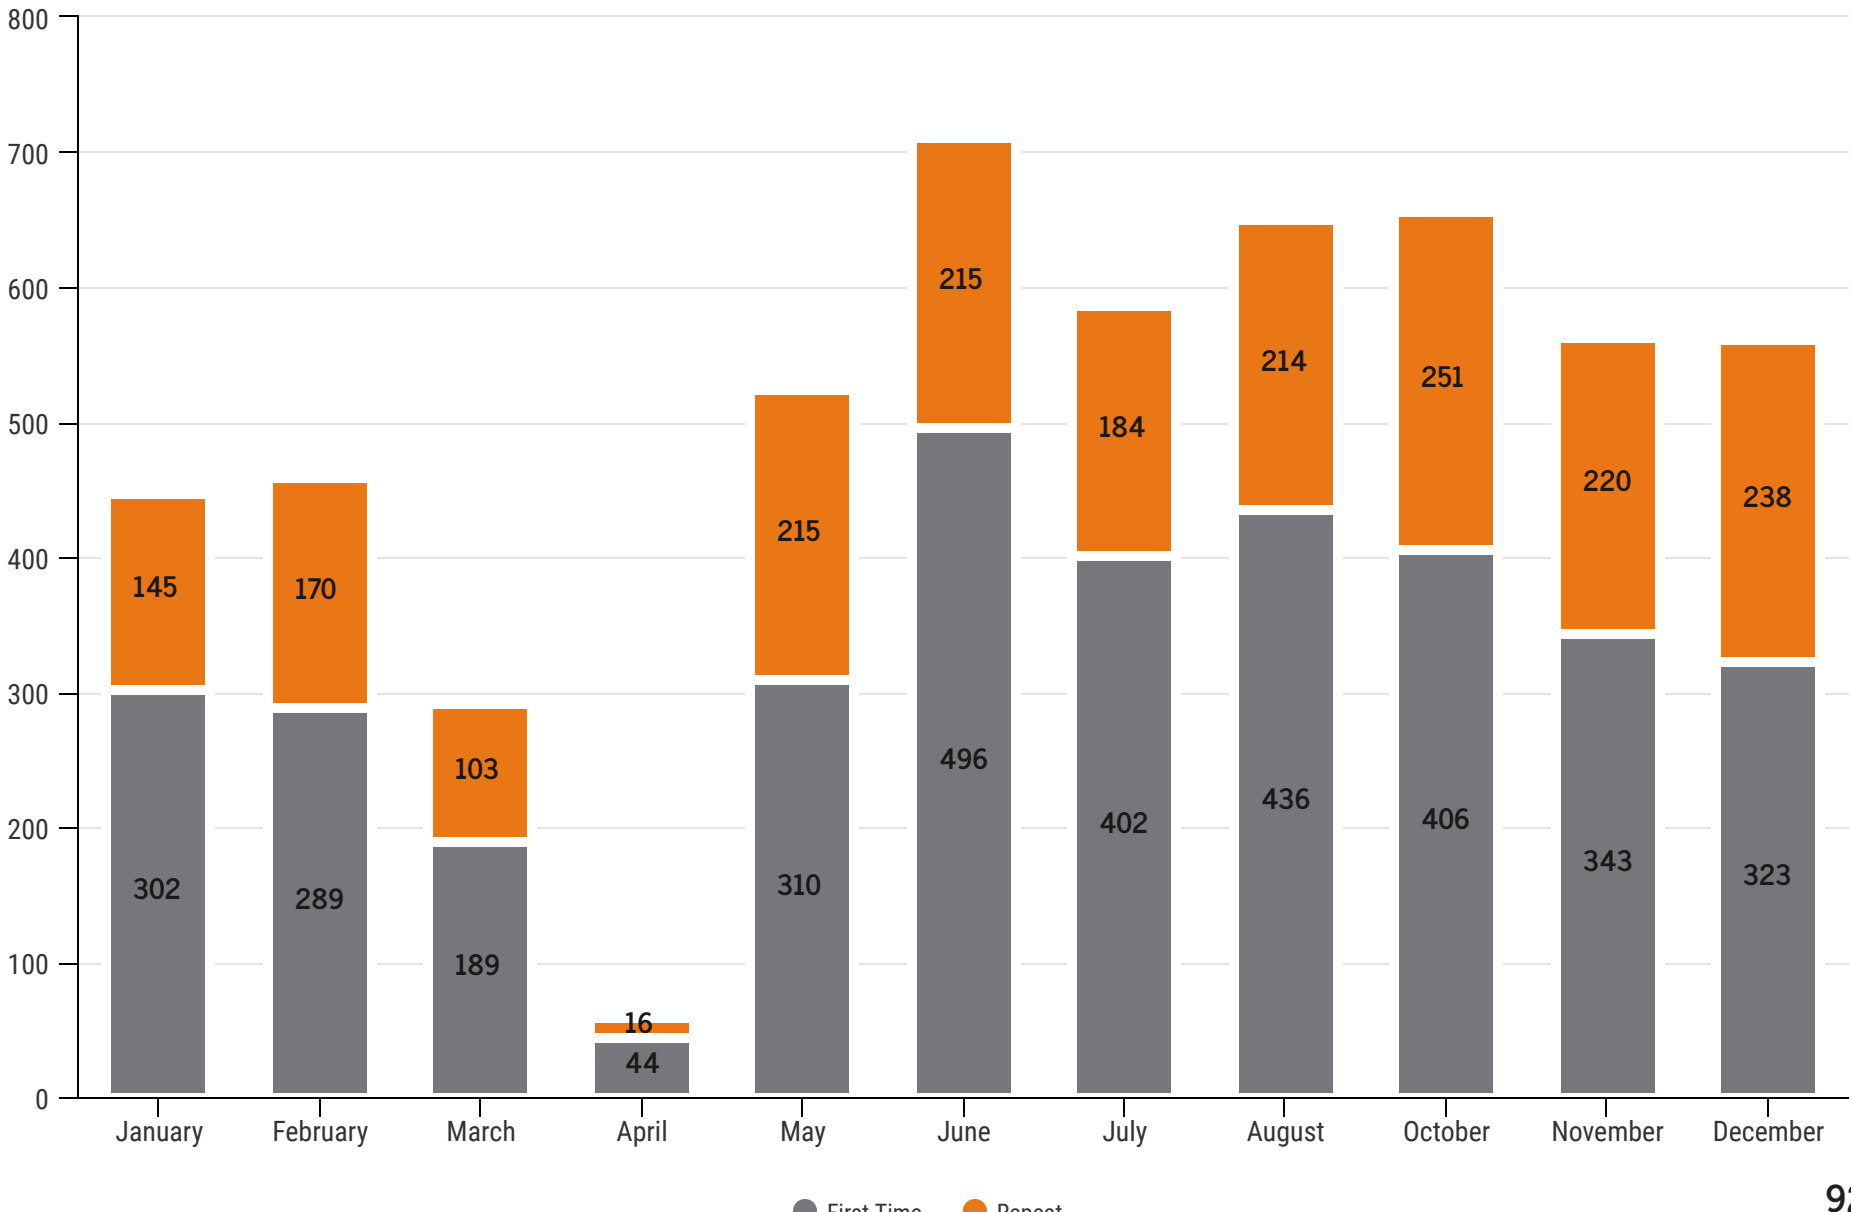

Total EPPP's Administered Per Year (Past 20 Years²)

Candidates who sit for the EPPP must first be approved by a psychology licensing board. Between 1965- 1978, the EPPP was administered on a rolling basis. This changed between 1979- 2001, when the EPPP was administered twice per year, once in April and once in October. Since 2001, the EPPP is again administered on a rolling basis.

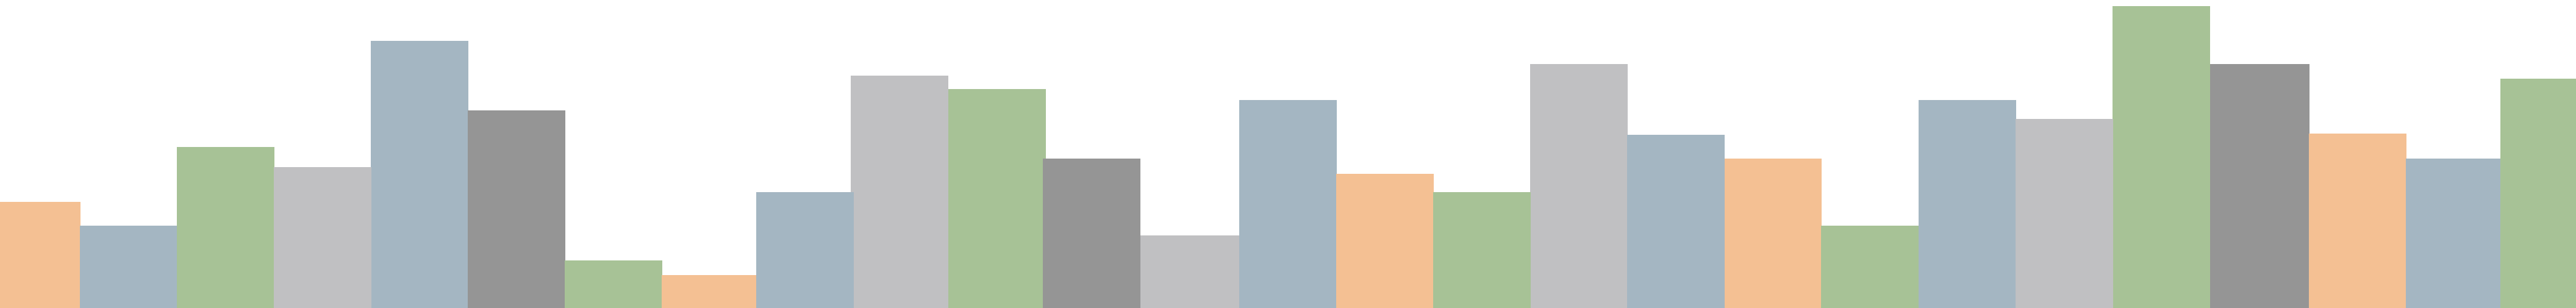

First Time and Repeat EPPP Takers (2020)

Candidates may reapply to take the EPPP by contacting the psychology licensing board for approval if previous attempts scores do not meet their licensing authority's requirement for licensure. Requirements for retakes vary and are determined by the psychology licensing boards.

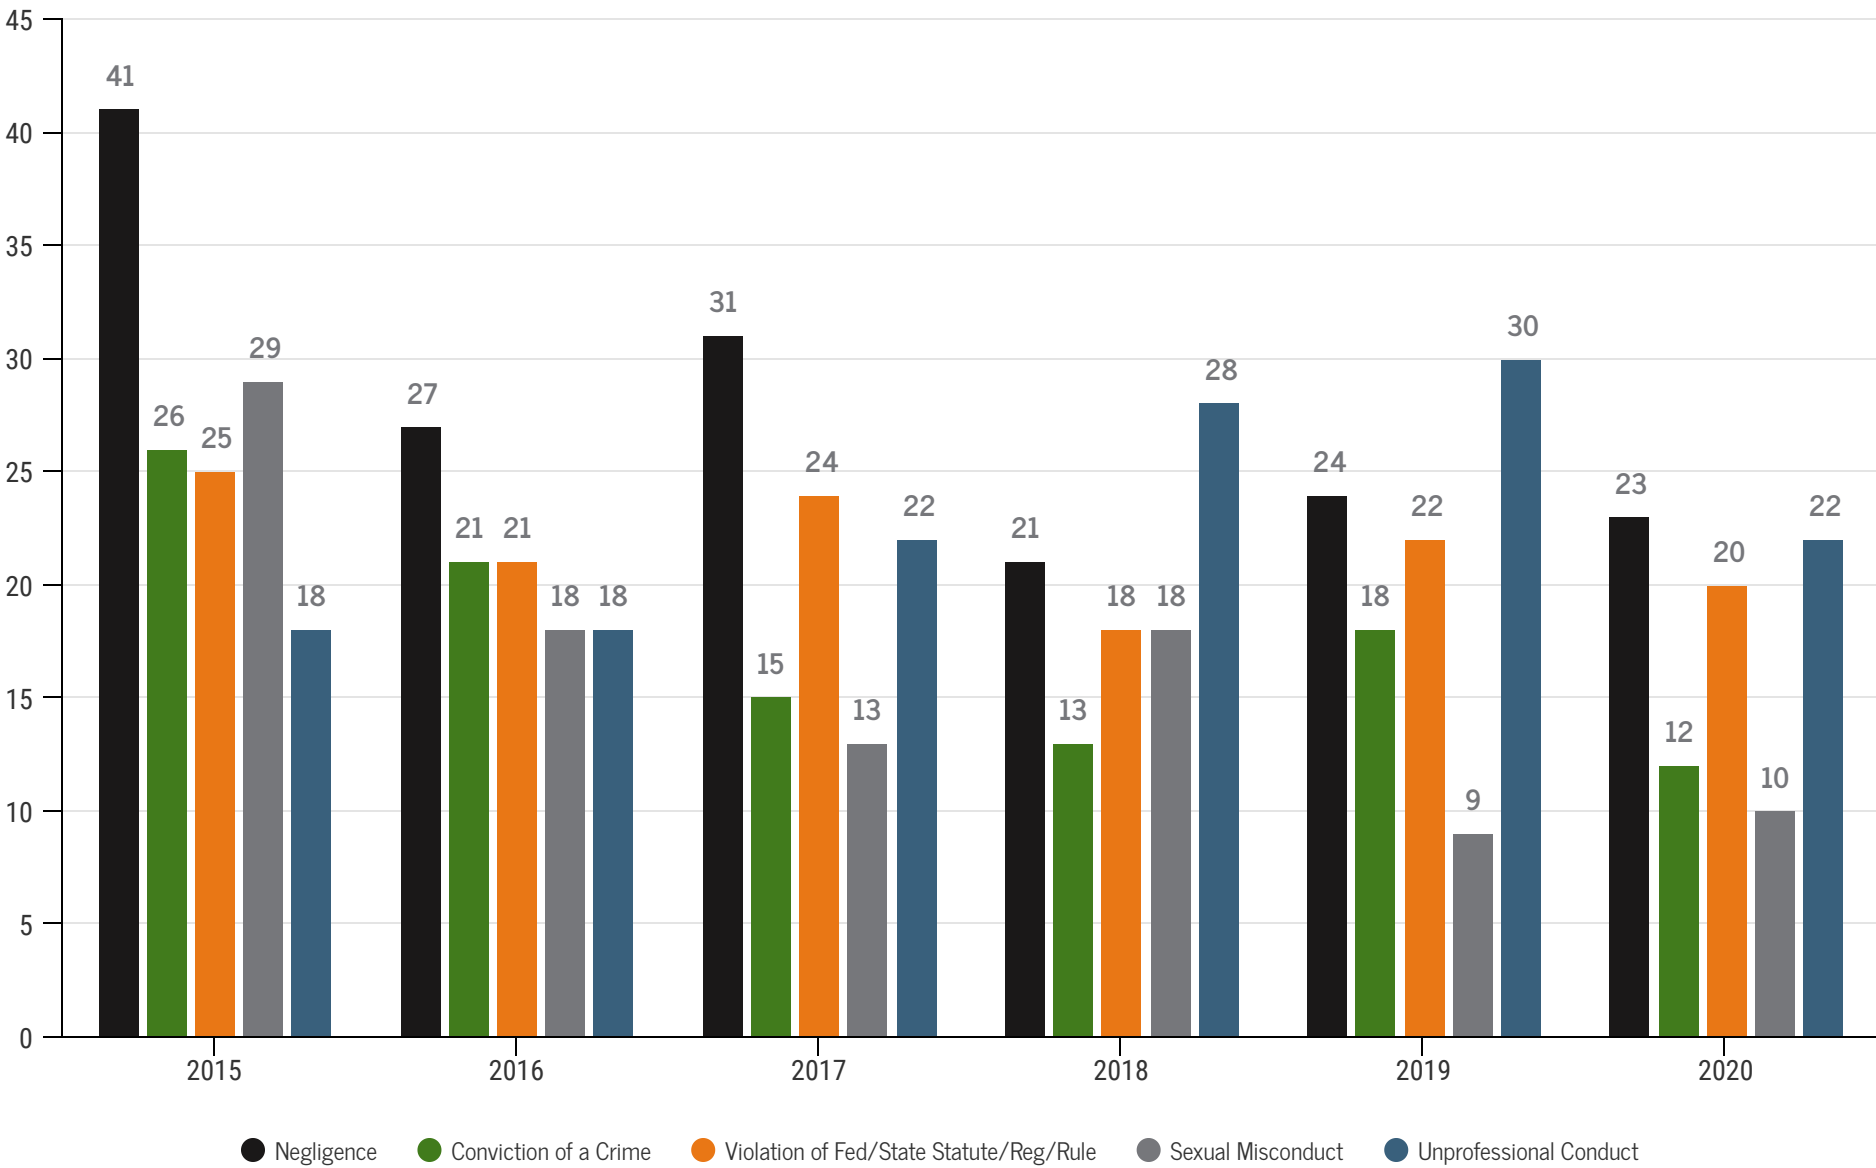

FOCUS: DDS

Focusing in on the ASPPB Disciplinary Data System (DDS)¹, a repository of publicly reported disciplinary actions taken by the psychology licensing boards. With records that date back to the 1970's, it allows sharing of information between jurisdictions regarding the disciplinary actions taken against their licensees.

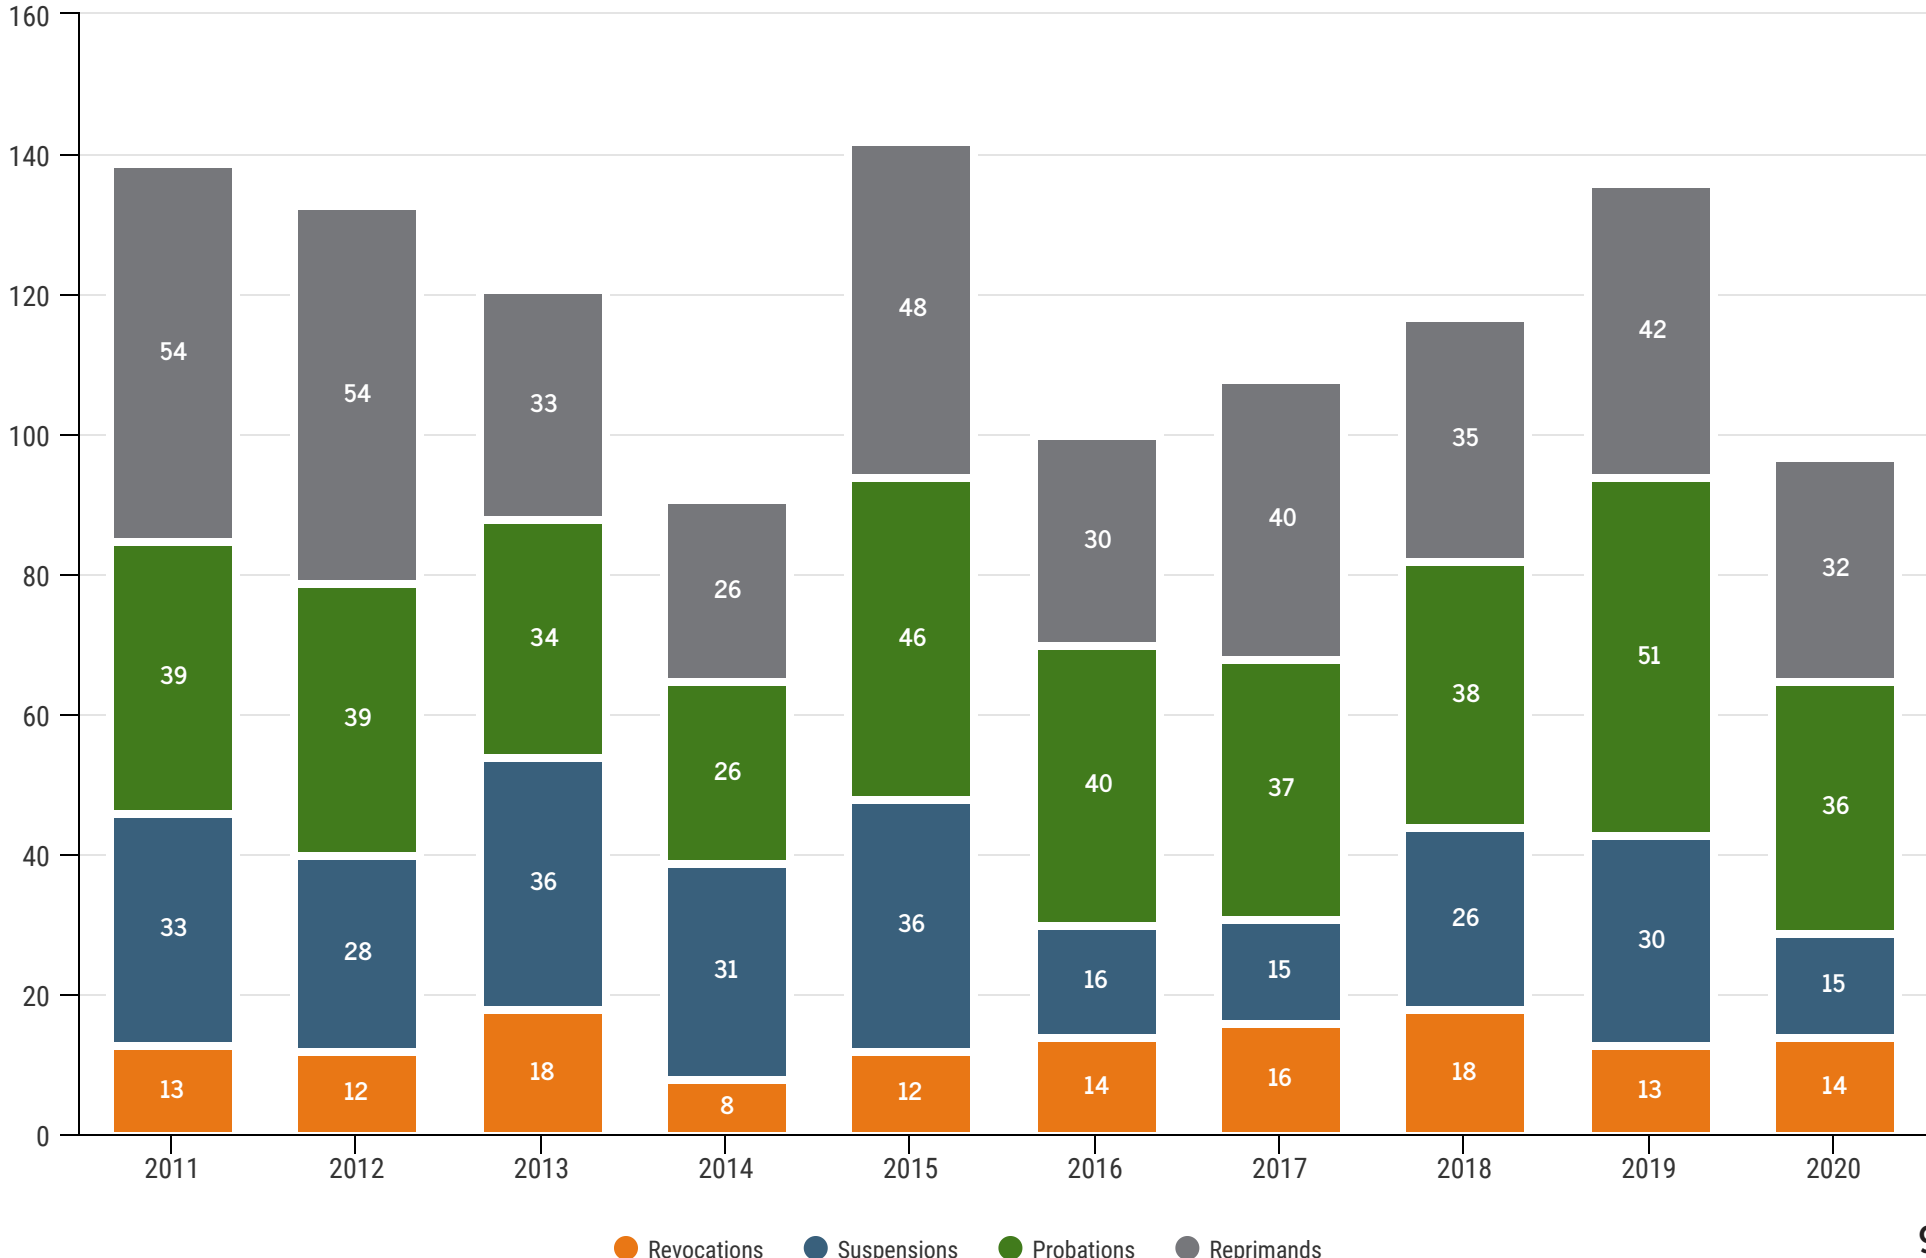

Top Disciplinary Reason Types (Past 5 Years²)

Psychology licensing boards will review any formal written complaint about a psychologist's services or behavior related to the practice of psychology and will take disciplinary action if they find evidence of incompetent or unprofessional services or unethical, unprofessional and/or illegal behavior. Psychology licensing boards may have differences in their laws and rules regarding the practice of psychology and licensed professionals.

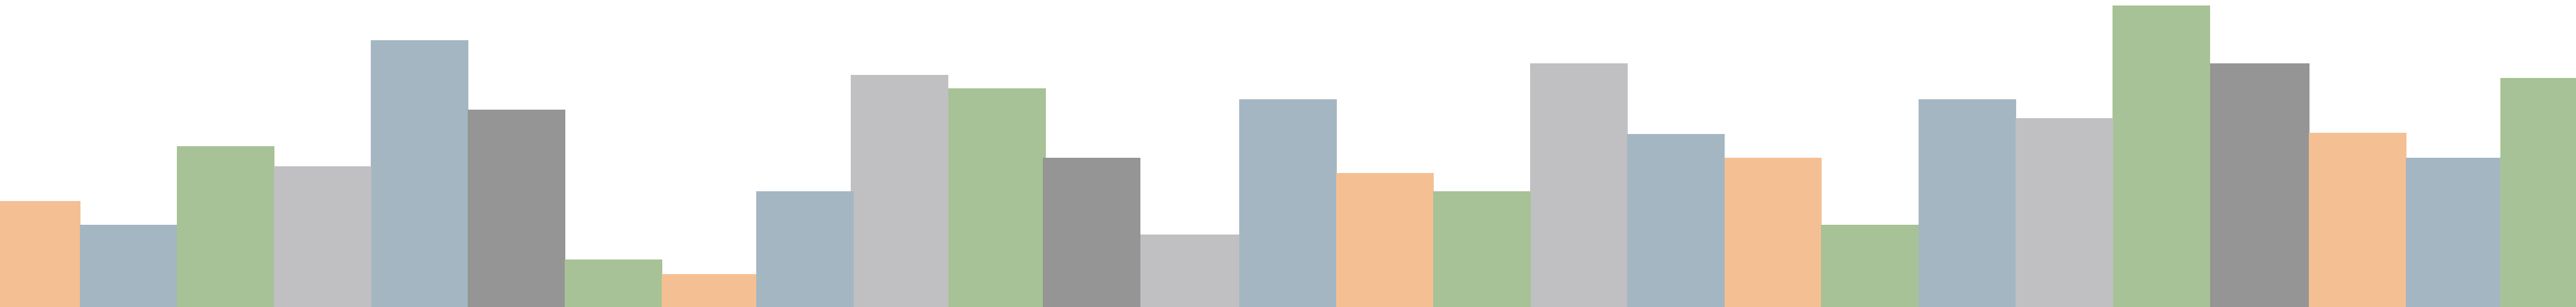

Disciplinary Action Types Taken Per Year (Past 10 Years³)

Each psychology licensing board determines the appropriate disciplinary action based on the findings of an investigation. The top four disciplinary action types taken are reprimand,⁴ revocation,⁵ probation⁶ and suspension.⁷

APPENDIX D: ENDNOTES

ENDNOTES

SPOTLIGHT

1. As part of the annual collection of ASPPB membership dues, psychology licensing boards are surveyed regarding the current number of licenses they maintain and issue. 2020 data is not available for the following jurisdictions: Alabama, Arkansas, Colorado, Hawaii, Indiana, Minnesota, New Brunswick, New Jersey, North Carolina, Puerto Rico, and Washington.
2. The American Psychological Association (APA) is a scientific and professional organization that represents psychologists in the United States.
3. The Canadian Psychological Association (CPA) is the national association for the science, practice and education of psychology in Canada.
4. Regional accreditation applies to an institution of higher education that was, at the time the degree was awarded, regionally accredited by bodies approved by the Council on Postsecondary Accreditation and the United States Office of Education, or a University recognized by Universities Canada, formerly known as Universities and Colleges of Canada (AUCC).
5. Residency means physical presence, in person, face-to-face, at an educational institution granting the doctoral degree for the purposes of facilitating acculturation in the procession, the full participation and integration of the individual in the education and training experiences and includes faculty student interaction. Training models that rely exclusively on physical presence for periods less than one (1) (e.g. Multiple long weekends and/or summer intensive sessions), or that use video conferencing or other electronic means as a substitute for any part of the minimum requirement for physical presence at the institution do not meet this definition of residency.
6. The reactivation fee for Saskatchewan is \$650-950. For the purposes of the calculations, a fee of \$650 was used.

7. There were 35 respondents to this question but please note respondents were allowed to select multiple responses to this question. Therefore, there were 44 total responses.

8. The PSY|Book survey initially launched in January 2018, prior to PSYPACT officially accepting applications to practice under the authority of PSYPACT in July 2020. Several jurisdictions participate in PSYPACT and have also responded to the PSY|Book data including Arizona, Colorado, Missouri, Nebraska, New Hampshire, Oklahoma, Pennsylvania, Texas, Utah, and Virginia. Caution is advised when interpreting data for these jurisdictions as it may have been collected prior to PSYPACT starting to accept applications to practice. For the most current requirements and information regarding temporary practice, please visit the psychology licensing board websites or the PSYPACT website at www.psypact.org.

9. There were 14 respondents to this question but please note respondents were allowed to select multiple responses to this question. Therefore, there were 24 total responses.

SNAPSHOT

1. Does not have to be a CE course
2. APA only required for licensure
3. Predoctoral internship is a requirement for the APA accredited doctoral program. The predoctoral internship is automatically accepted as satisfying 1 of the 2 years of supervised experience.
4. Required for clinical psychology
5. Not to exceed 6 CE units per year

FOCUS- PSYPACT

1. Data in this section comes from the PSYPACT Commission.
2. Data presented regarding PSYPACT is current through December 31, 2021. For the latest information, please visit www.psypact.org.

FOCUS- EPPP

- 1. Data in this section comes from the ASPPB Examinations division’s archives.
- 2. Only annual totals were readily available in 2001. For charting purposes the total for 2001 was divided by twelve so a representative year to date number tested could be shown.

FOCUS- DDS

- 1. Data in this section comes from the ASPPB Member Services division’s Disciplinary Data System.
- 2. The number of reported reasons listed in a report may change based on information provided by the licensing board after the publication of a previous annual report. Reported reasons are listed based on the date of discipline taken and not the date reported to ASPPB.
- 3. The number of reported actions listed in a report may change based on information provided by the licensing board after the publication of a previous annual report. Reported actions are listed based on the date of discipline taken and not the date reported to ASPPB.
- 4. Reprimand as defined by the ASPPB Committee on Disciplinary Issues (CODI): A disciplinary action that constitutes public admonishment by the licensing entity.
- 5. Revocation as defined by the ASPPB Committee on Disciplinary Issues (CODI): A disciplinary action that takes away licensure or registration by the licensing entity; however, in some instances the individual may reapply for licensure at a later time.
- 6. Probation as defined by the ASPPB Committee on Disciplinary Issues (CODI): A disciplinary action taken by the licensing entity which allows the individual’s right to practice to continue, but with terms and conditions added to protect the public during that time of probation.
- 7. Suspension as defined by the ASPPB Committee on Disciplinary Issues (CODI): A loss of licensure or registration by the licensing entity for a defined period of time or, in some cases, an indefinite period of time; in order for the suspension to be lifted, often other conditions must be met.
