About the Centre

The primary purpose of the Centre for Data and Analysis on Psychology Licensure® (the Centre) is to support psychology licensing boards in making informed decisions through consistent data collection, analysis, and reporting. With this sixth publication of ASPPB InFocus® and updated Centre, ASPPB wants to thank our member boards for their participation. We look forward to continued collaboration in the collection and analysis for the regulation of the profession of psychology.

About the Data

The Centre will continue to identify data points and modify data displays for future publications. The data presented in this publication is derived from several sources of repositories:

PSY|Book®

ASPPB's online reporting tool for licensure requirements. Representatives from the psychology licensing boards complete an annual survey regarding the licensing requirements specific to each jurisdiction. ASPPB does not alter the survey responses. The data displayed in this publication represents all survey information gathered at time of publication. ASPPB recommends confirming specific data points directly with the psychology licensing boards prior to making licensure or regulatory decisions.

System Data

- ASPPB Membership Data
- ASPPB Examination for Professional Practice in Psychology (EPPP)® Candidate Tracking
- ASPPB Disciplinary Data System (DDS)

PSYPACT®

The Psychology Interjurisdictional Compact (PSYPACT) data is provided by the PSYPACT Commission. Data presented regarding PSYPACT is current through December 31, 2025. ASPPB recommends contacting PSYPACT staff or visiting www.psypact.gov for the most current information.

Welcome to ASPPB InFocus® 2025

Dear Colleagues,

It is with great enthusiasm that I welcome you to the 2025 edition of **ASPPB InFocus®**, produced through the dedicated efforts of ASPPB's Centre for Data and Analysis on Psychology Licensure®—commonly known as The Centre.

Over the past five years, the **ASPPB InFocus®** has grown into a trusted resource for readers seeking comprehensive, jurisdiction-specific information on psychology licensure and regulation. This edition features updated data and participation from 60 jurisdictions across the United States and Canada, providing a broad and refined look at psychology licensure and regulation. Within these pages, readers will find information on the number of licensees, licensure requirements, education and supervision standards, examinations, license renewal processes, and continuing professional development and continuing education requirements.

In addition, the 2025 ASPPB InFocus® includes focused sections highlighting key initiatives and programs shaping the regulatory landscape, including the Psychology Interjurisdictional Compact (PSYPACT)®, the Examination for Professional Practice in Psychology (EPPP)®, and the ASPPB Disciplinary Data System (DDS).

Thank you for your continued partnership and support of ASPPB and The Centre. Together, with our member boards and regulatory partners, we remain committed to advancing public protection and supporting excellence in psychology regulation.

Best regards,

Mariann Burnetti-Atwell, PsyD
Chief Executive Officer, ASPPB

Spotlight

Big picture view of psychology licensure in the United States and Canada with a spotlight on the number of licenses, education, supervised experience, exams, fees, renewals, continuing education/continuing professional development and other pertinent information about psychology licensure.

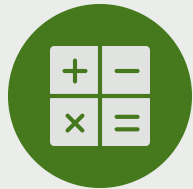

As noted in the previous data displays, psychology licensing boards issue multiple types of licenses and the licensing requirements for each type of license vary. The following data focuses on licensure requirements for practicing as a psychologist in the United States, U.S. Territories, and Canada. Please submit an inquiry to the Centre or visit the psychology licensing board websites for additional information on types of licenses.

Number of Licenses

Psychology licensing boards are responsible for governing the practice of psychology in their state, province or territory. In order to practice as a psychologist in the U.S. and Canada, a psychologist must obtain an active license to practice psychology from their state or provincial psychology licensing board. Each year, ASPPB surveys the psychology licensing boards regarding the number of licenses they maintain and issue. The following information displays data from the number of licenses reported to ASPPB.

Education

In order to practice independently as a psychologist in the U.S. and Canada, the prevailing standard is that a psychologist must have obtained a doctoral degree in psychology. Approximately 63% of respondents accept programs accredited by the American Psychological Association (APA), and 48% accept programs by the Canadian Psychological Association (CPA), but they also allow for other alternatives. Additionally, most respondents (75%) require regional accreditation of the degree-granting institution. Data from 2025 also reveals that a little over half of respondents (53%) have a residency requirement.

Doctoral Degree

55

out of 60 respondents require at a minimum a doctoral degree

5 require a Master's or Doctoral

Regional Accreditation

45

out of 60 respondents require regional accreditation

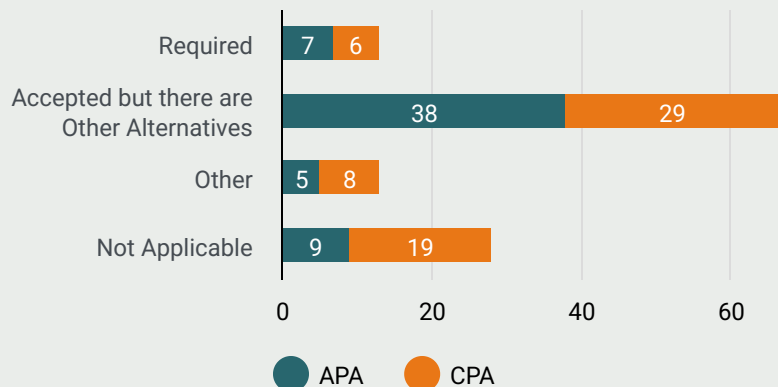

Residency

32

Prescriptive Authority

In some jurisdictions, a licensed psychologist may obtain the authority to prescribe medications if the psychologist has met certain requirements.

7

jurisdictions in the United States can issue prescriptive authority to licensed psychologists. Issuance of prescriptive authority may be under the authority of a different agency in other jurisdictions.

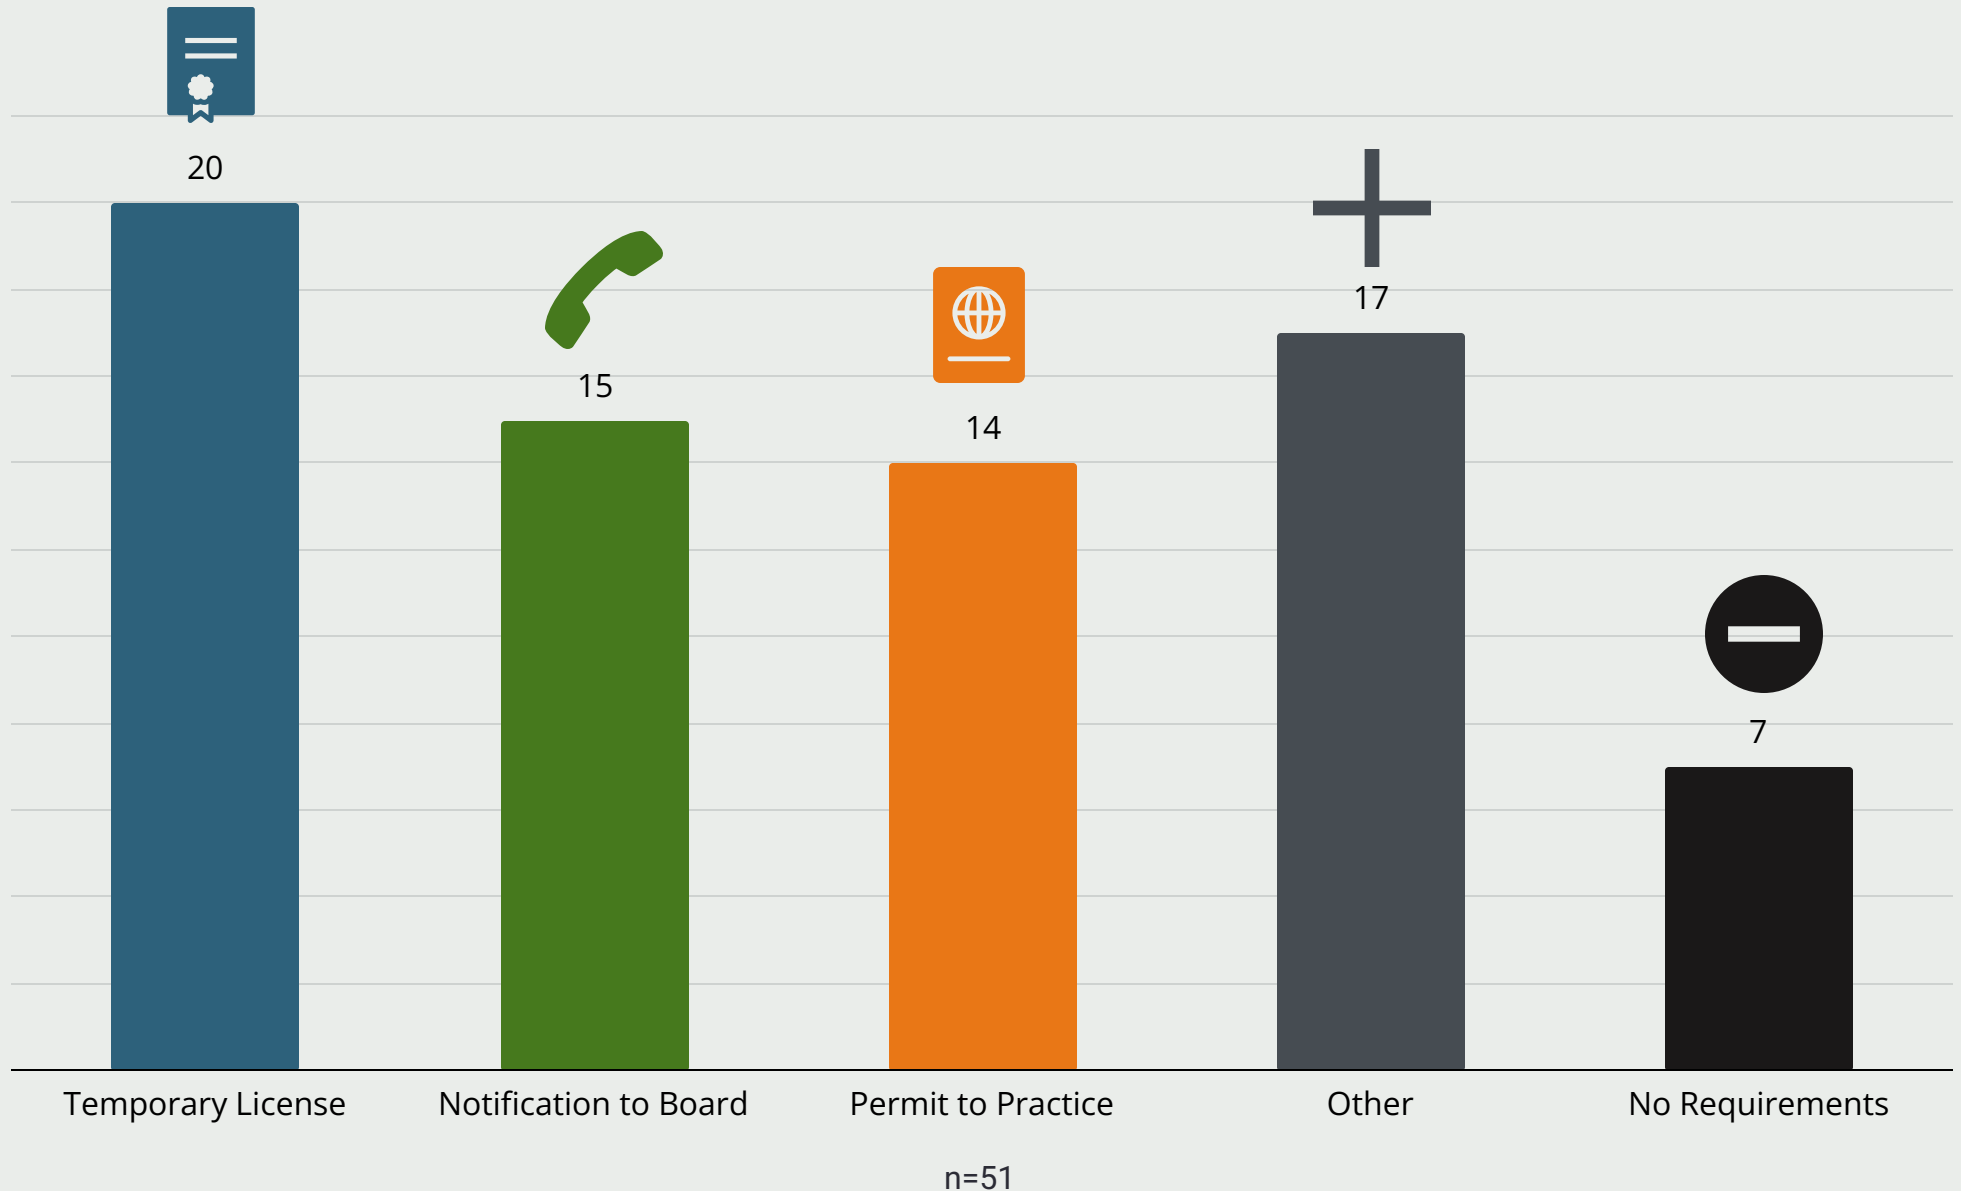

100%

of jurisdictions that issue prescriptive authority require the Psychopharmacology Examination for Psychologists (PEP)[®].

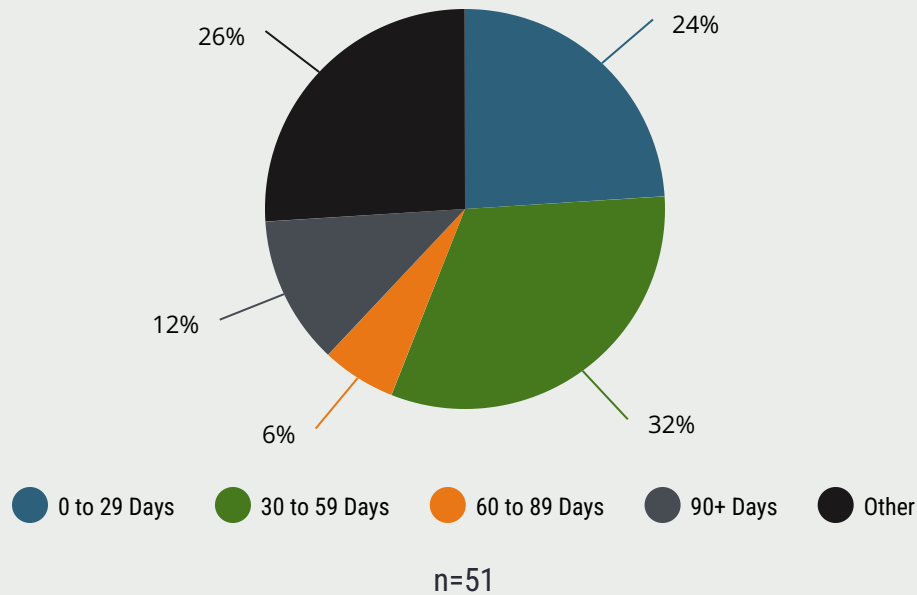

Temporary Practice

Temporary practice is defined by ASPPB as when an individual licensed to practice psychology at the doctoral level in one jurisdiction may practice psychology in another jurisdiction for a specific period of time without obtaining full licensure. Though requirements vary by jurisdiction, 51 out of 60 respondents (85%) authorize temporary practice through one of the methods listed below.

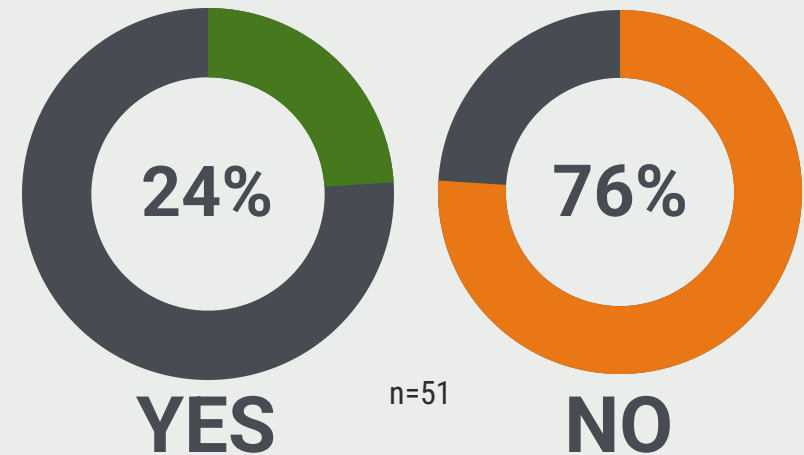

Temporary Practice (Continued)

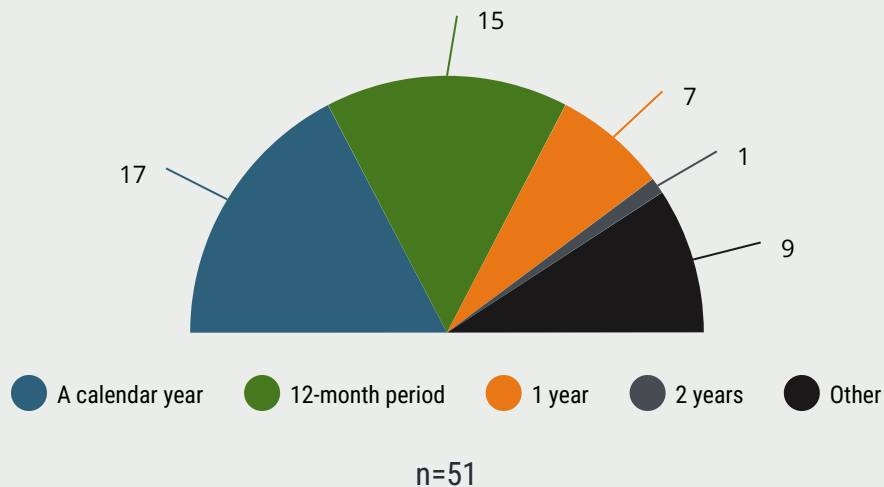

Maximum Number of Days

Must Days be Consecutive

Temporary Practice Timeframe

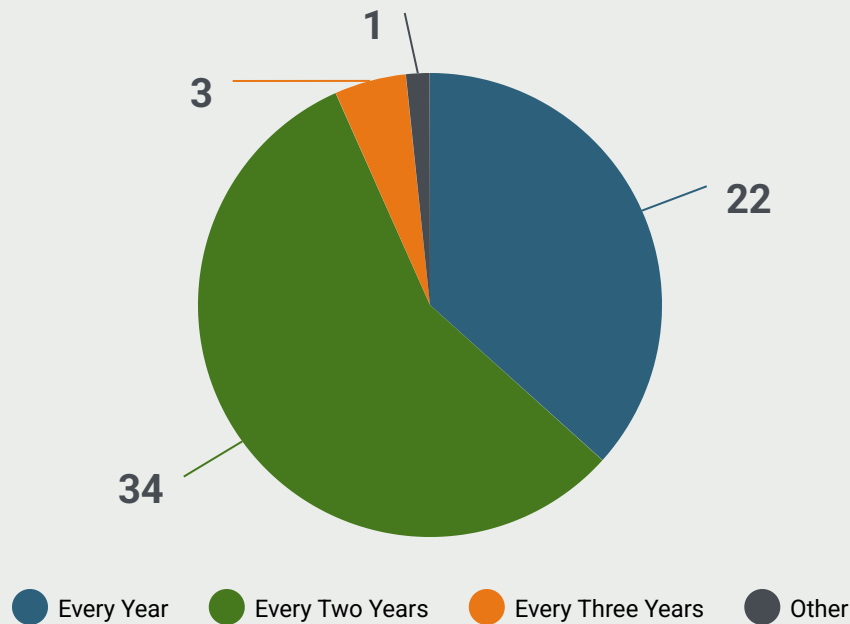

Important Note: PSYPACT & Temporary Practice

The Psychology Interjurisdictional Compact (PSYPACT)[®] is an interstate compact designed to facilitate the practice of telepsychology and the temporary in-person, face-to-face practice of psychology across state lines in PSYPACT participating states. For temporary practice under the authority of PSYPACT, psychologists licensed in PSYPACT participating states can apply to practice temporarily up to 30 calendar days per calendar year in each PSYPACT state. Data in this section is not reflective of PSYPACT participating states. For more information about PSYPACT, visit the Focus: PSYPACT section of this publication.

License Renewals

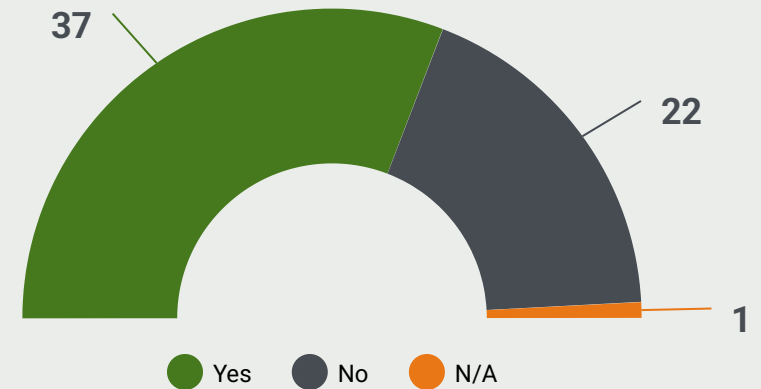

Psychologists must renew their licenses on a schedule set by the psychology licensing boards to maintain a license to practice. The **largest proportion of respondents (57%)** require licenses to be renewed every two years.

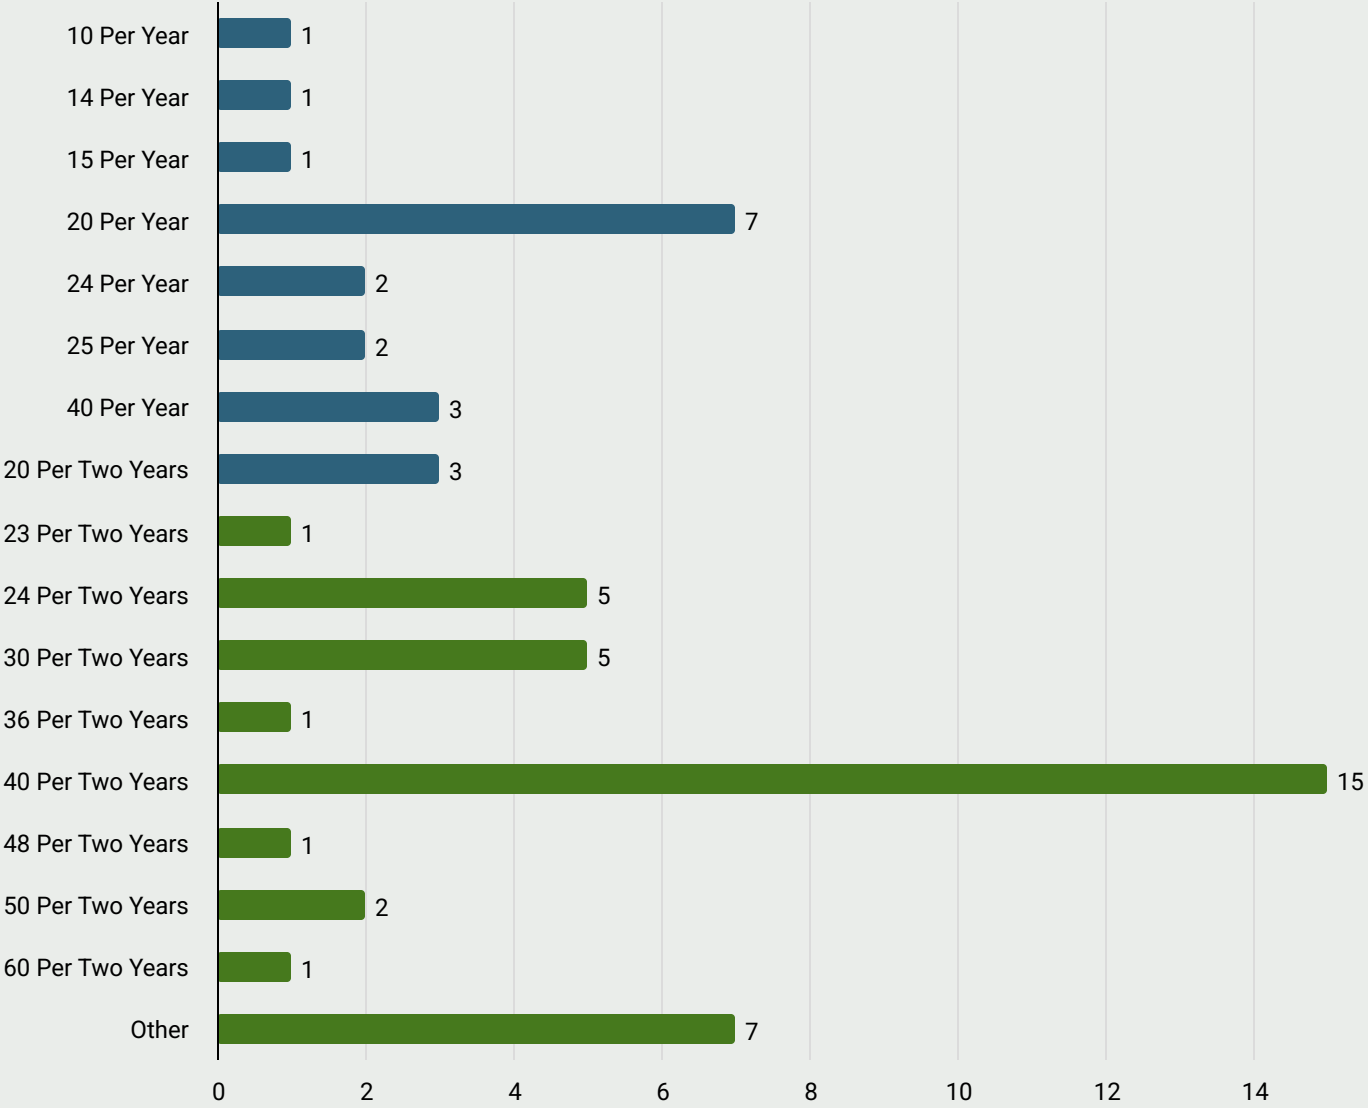

Inactive Licenses

Approximately **62% of respondents** provide for an inactive license status. A psychologist who holds an inactive license may not practice psychology but may continue to use the title "psychologist".

A psychologist who holds an inactive license continues to be subject to the statutes and rules/regulations of the psychology licensing board.

Continuing Professional Development & Continuing Education

Number of Hours of CPD/CE Required in Each Renewal Period

98%

of all respondents require their licensees to complete continuing professional development/continuing education each renewal cycle.

Ethics Requirements

74% of respondents require that a portion of a psychologist's CPD/CE hours be in ethics.

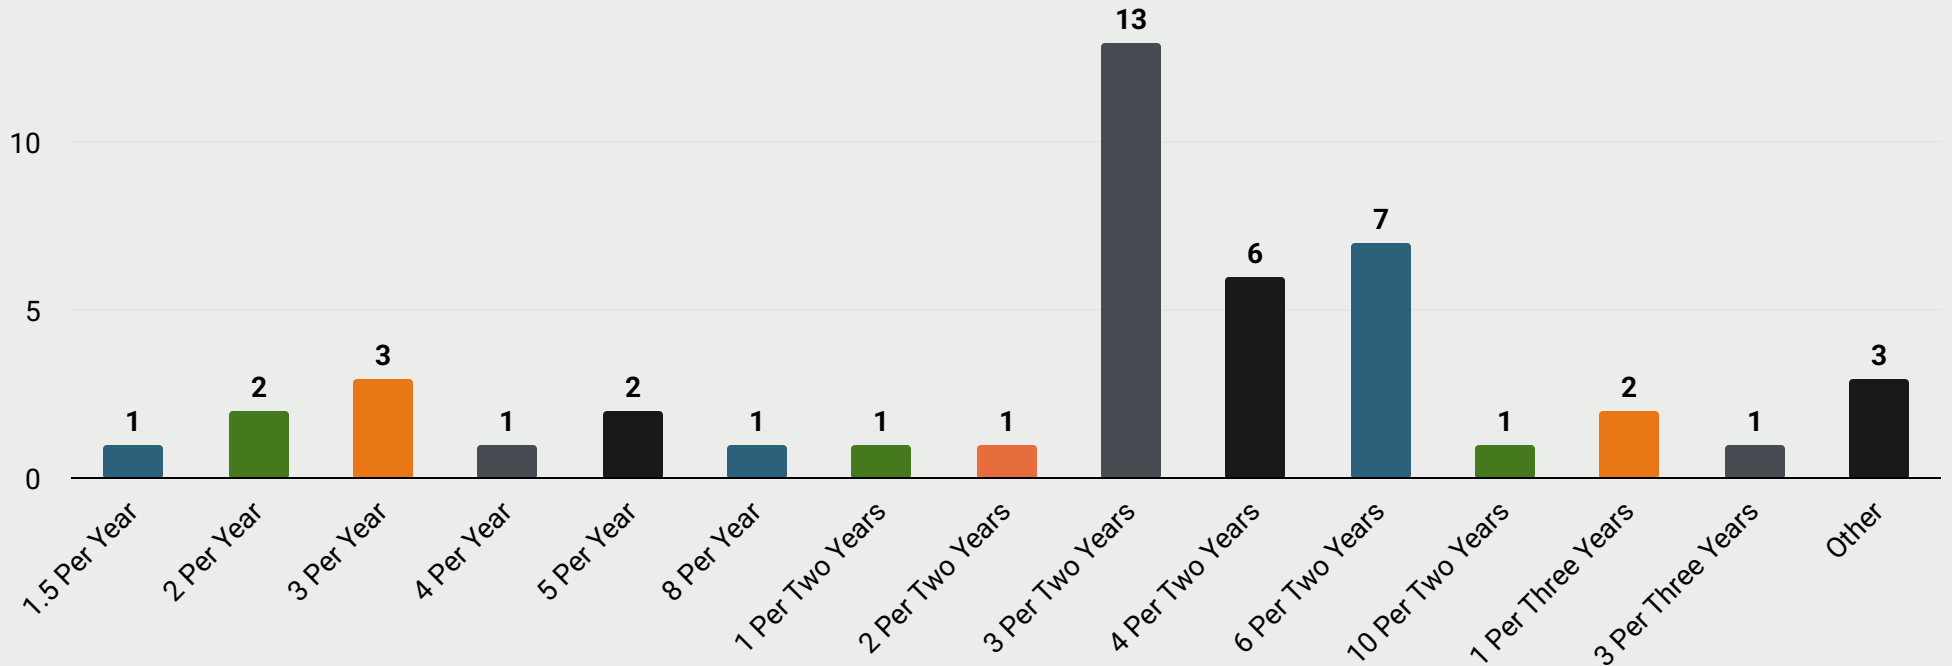

● Yes ● No

90% of respondents require psychologists to abide by a code of ethics.

FOCUS: PSYPACT®

Focusing on the Psychology Interjurisdictional Compact (PSYPACT)®: an interstate compact designed to facilitate the practice of telepsychology and the temporary in-person, face-to-face practice of psychology across state boundaries in PSYPACT participating states. When applications officially opened, PSYPACT began providing licensed psychologists the opportunity to increase access to mental healthcare services while giving states a mechanism to enhance their ability to protect health and safety of the public. The following represents data through December 31, 2025.

Psychology Interjurisdictional Compact

ABOUT PSYPACT

The Psychology Interjurisdictional Compact (PSYPACT®) is a mutual recognition interstate compact designed to facilitate the interstate practice of telepsychology and/or the temporary in-person, face-to-face practice of psychology in PSYPACT states.

PSYPACT COMMISSION

The PSYPACT Commission is the governing body responsible for its oversight and creation of Rules and Bylaws. The Commission provides oversight of PSYPACT as well as creates and enforces the rules and policies governing the operation of PSYPACT. The Commission is established to fulfill the objectives of the Compact through a means of joint cooperative action among the Member States.

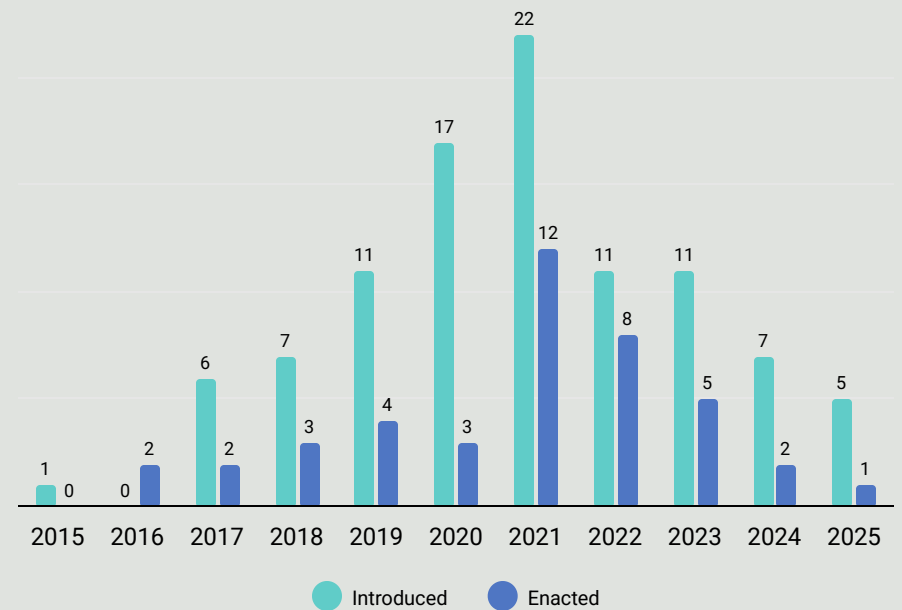

PRACTICING TELEPSYCHOLOGY

In order to practice telepsychology under the authority of PSYPACT, the PSYPACT Commission requires that a psychologist obtain an Authority to Practice Interjurisdictional Telepsychology (APIT®). Other requirement of the APIT is the ASPPB E.Passport.

INTRODUCED vs. ENACTED

Legislation by Year

PRACTICING TEMPORARILY

In order to conduct temporary practice under the authority of PSYPACT, the PSYPACT Commission requires that a psychologist obtain a Temporary Authorization to Practice (TAP®). One requirement of the TAP is the Interjurisdictional Practice Certificate.

Temporary Authorization to Practice (TAP®)

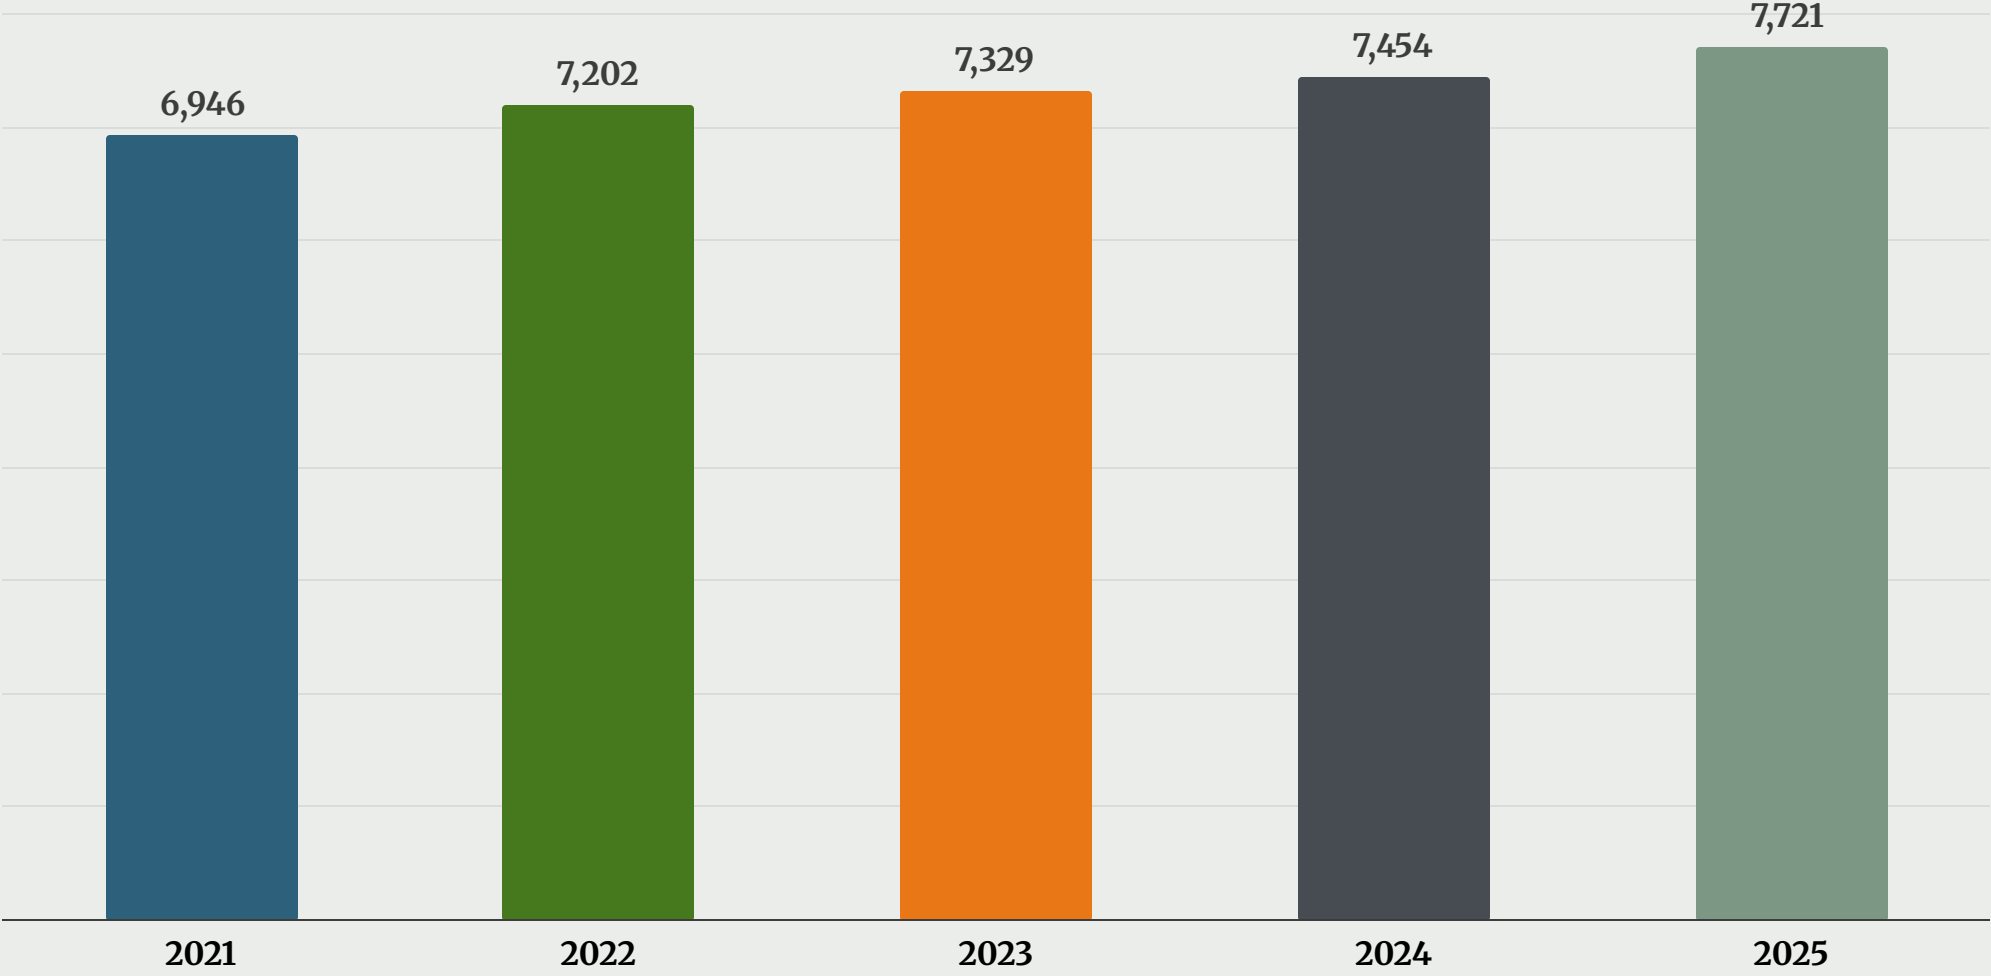

FOCUS: DDS

Focusing on the ASPPB Disciplinary Data System (DDS): a repository of publicly reported disciplinary actions taken by the psychology licensing boards. With records that date back to the 1970's, it allows sharing of information between jurisdictions regarding the disciplinary actions taken against their licensees.

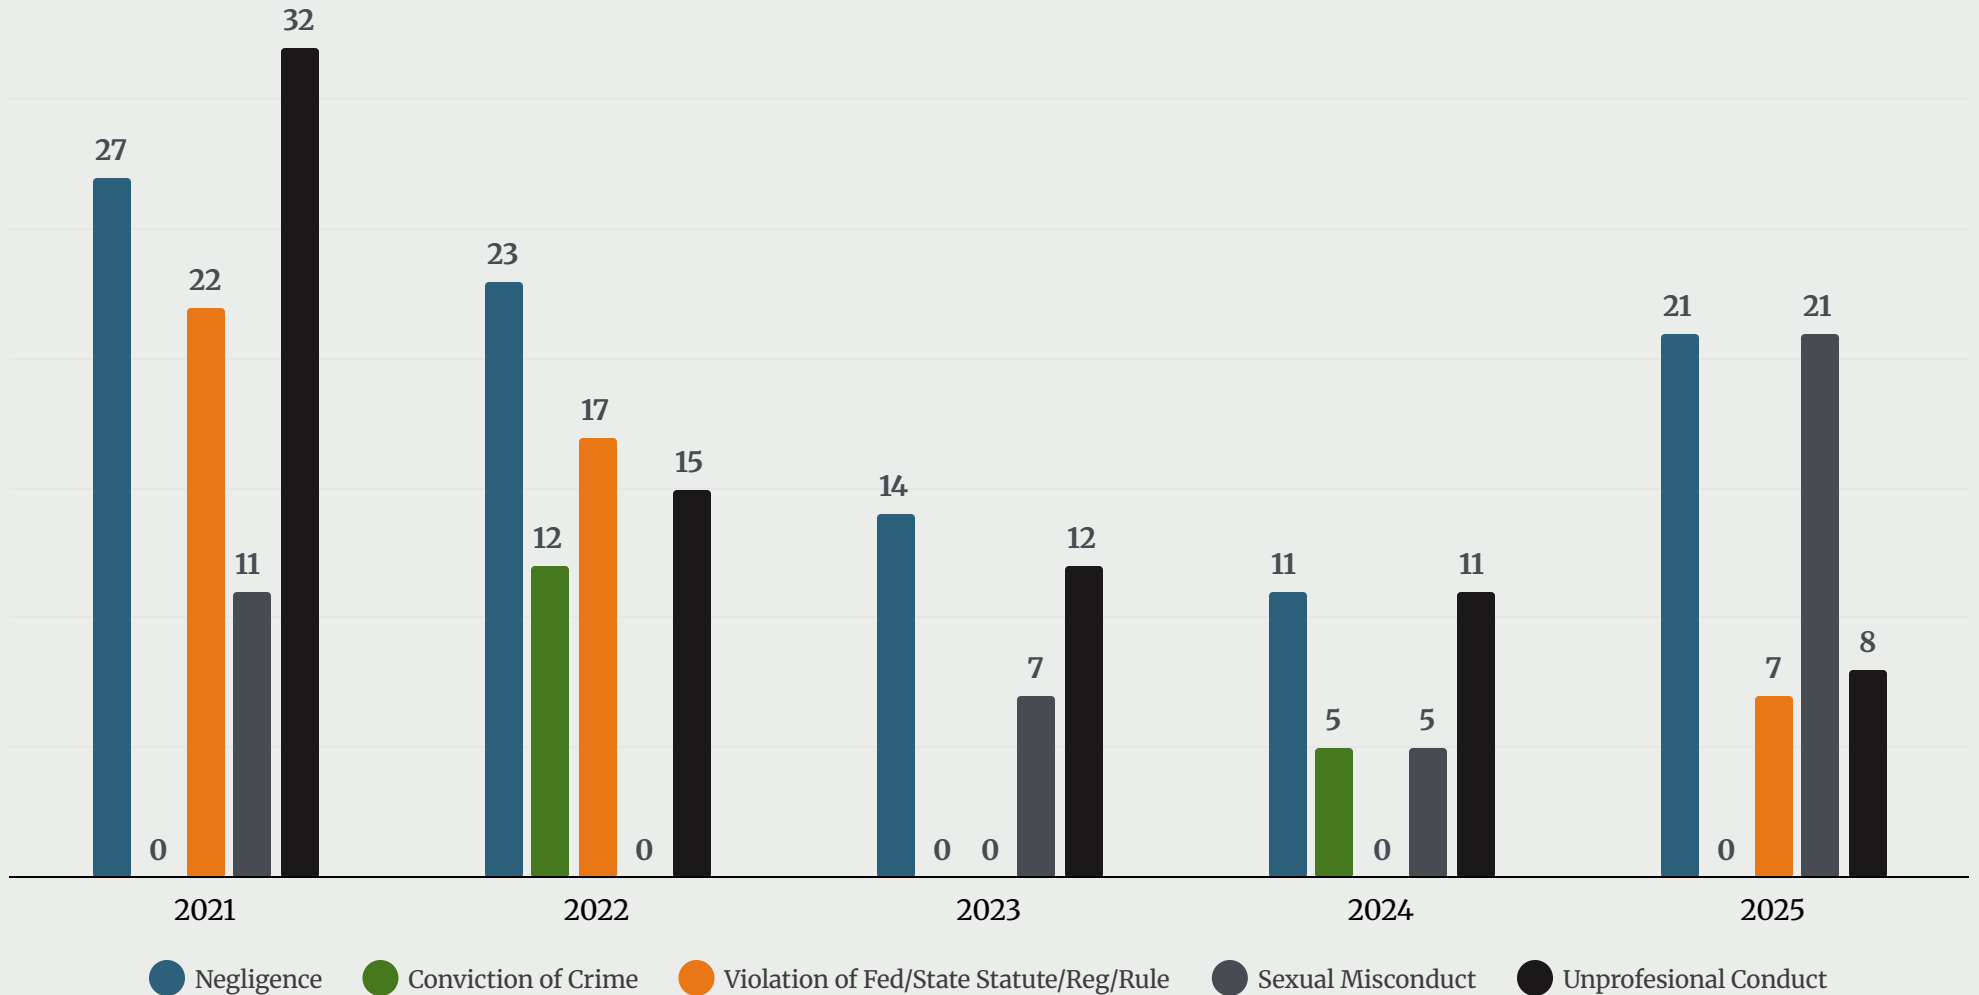

Total Number of Reported Actions to the ASPPB Disciplinary Data System (Past 5 Years)

Psychology licensing boards report disciplinary actions to ASPPB's Disciplinary Data System (DDS). The chart below displays the total number of reported actions submitted to the DDS from 2021 through 2025. The data show a steady year-over-year increase in reported actions across the five-year period, highlighting a consistent growth trend in DDS reporting activity.

Top Disciplinary Reason Types (Past 5 Years)

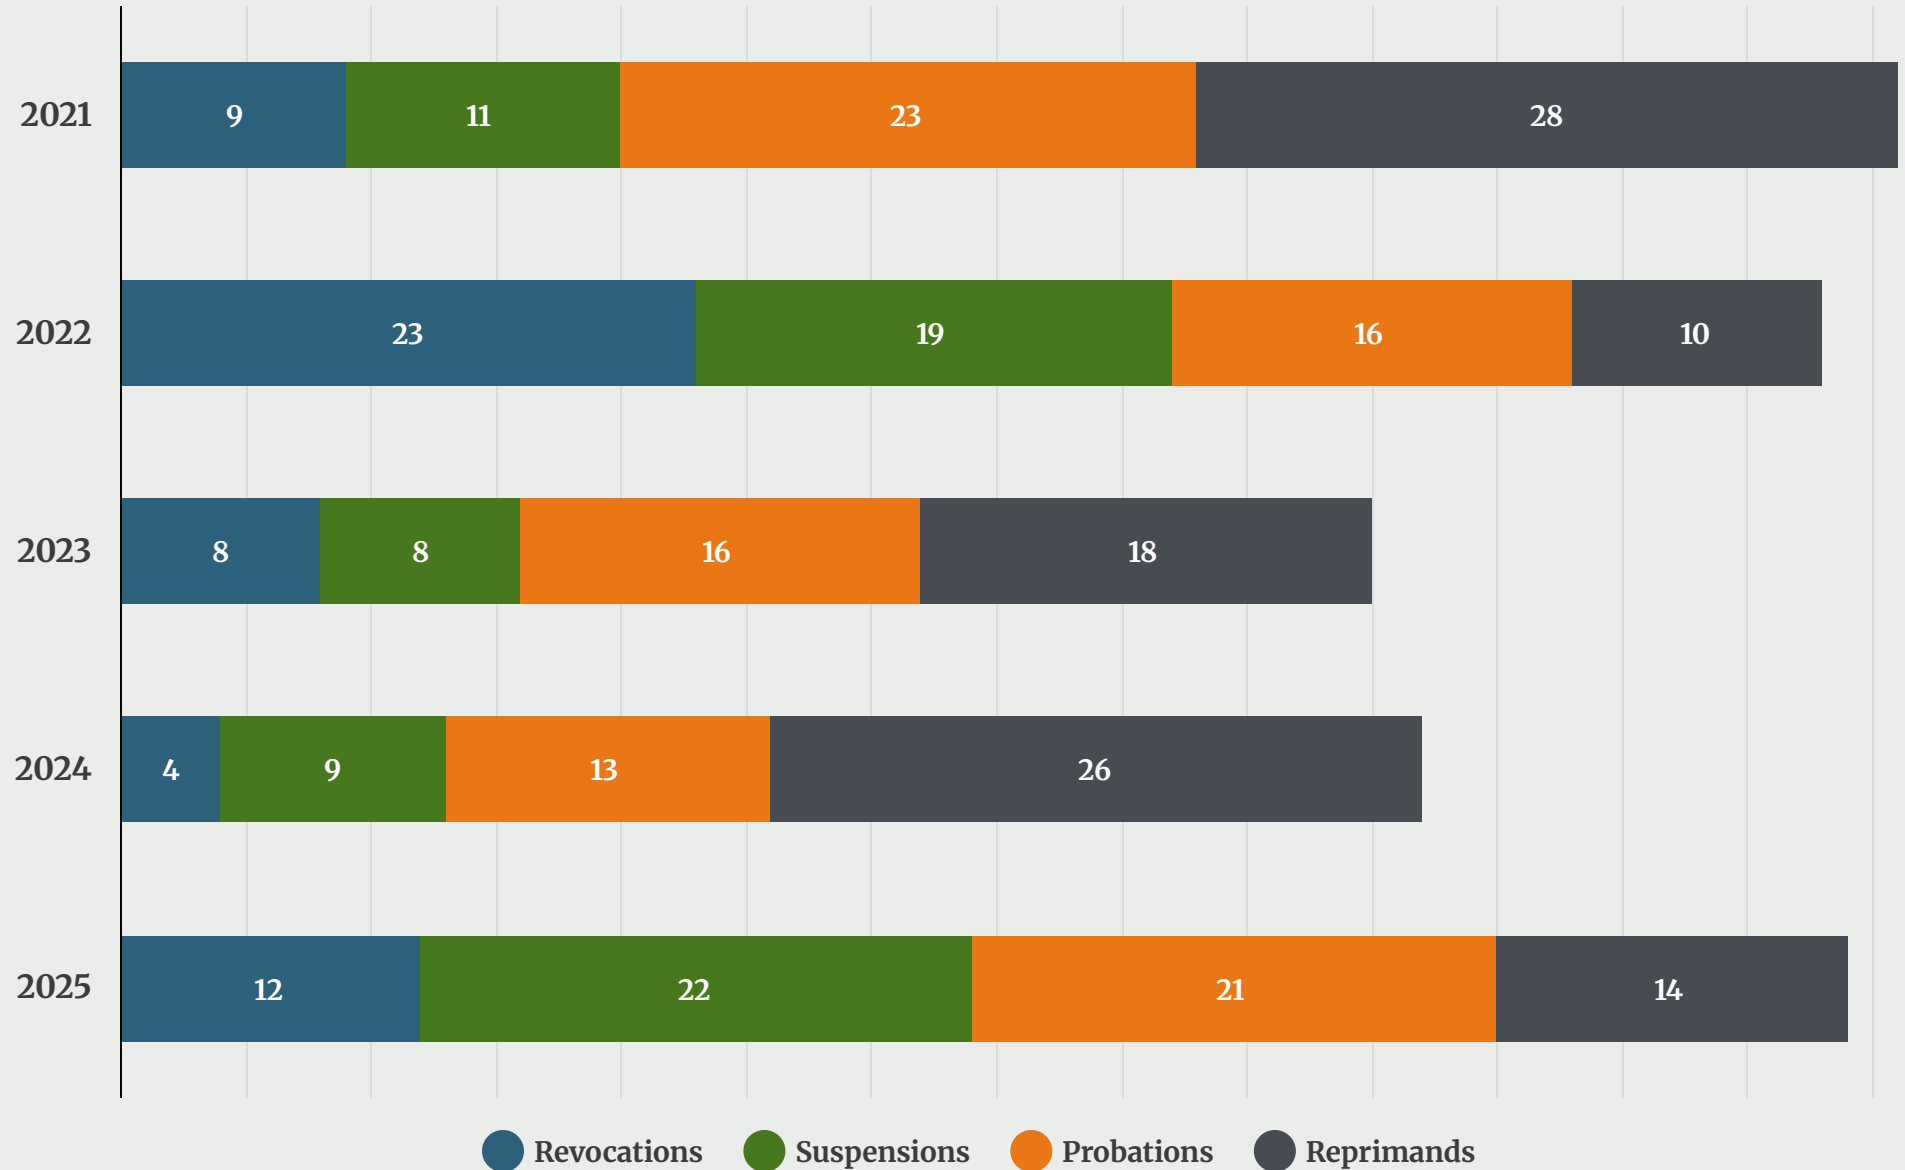

Psychology licensing boards will review any formal written complaint about a psychologist's services or behavior related to the practice of psychology and will take disciplinary action if they find evidence of incompetent, unprofessional services, unethical, unprofessional and/or illegal behavior. Psychology licensing boards may have differences in their laws and rules regarding the practice of psychology and licensed professionals.

Please note: Each disciplinary action may include multiple sanctions, including those not listed, such as supervision, mandatory continuing education, etc. Therefore, the total number of sanctions reported above does not equal the total number of disciplinary actions reported.

Disciplinary Action Types Taken Per Year (Past 5 Years)

Each psychology licensing board determines the appropriate disciplinary action based on the findings of an investigation. The top four disciplinary action types taken are: **revocation**, **suspension**, **probation**, and **reprimand**.

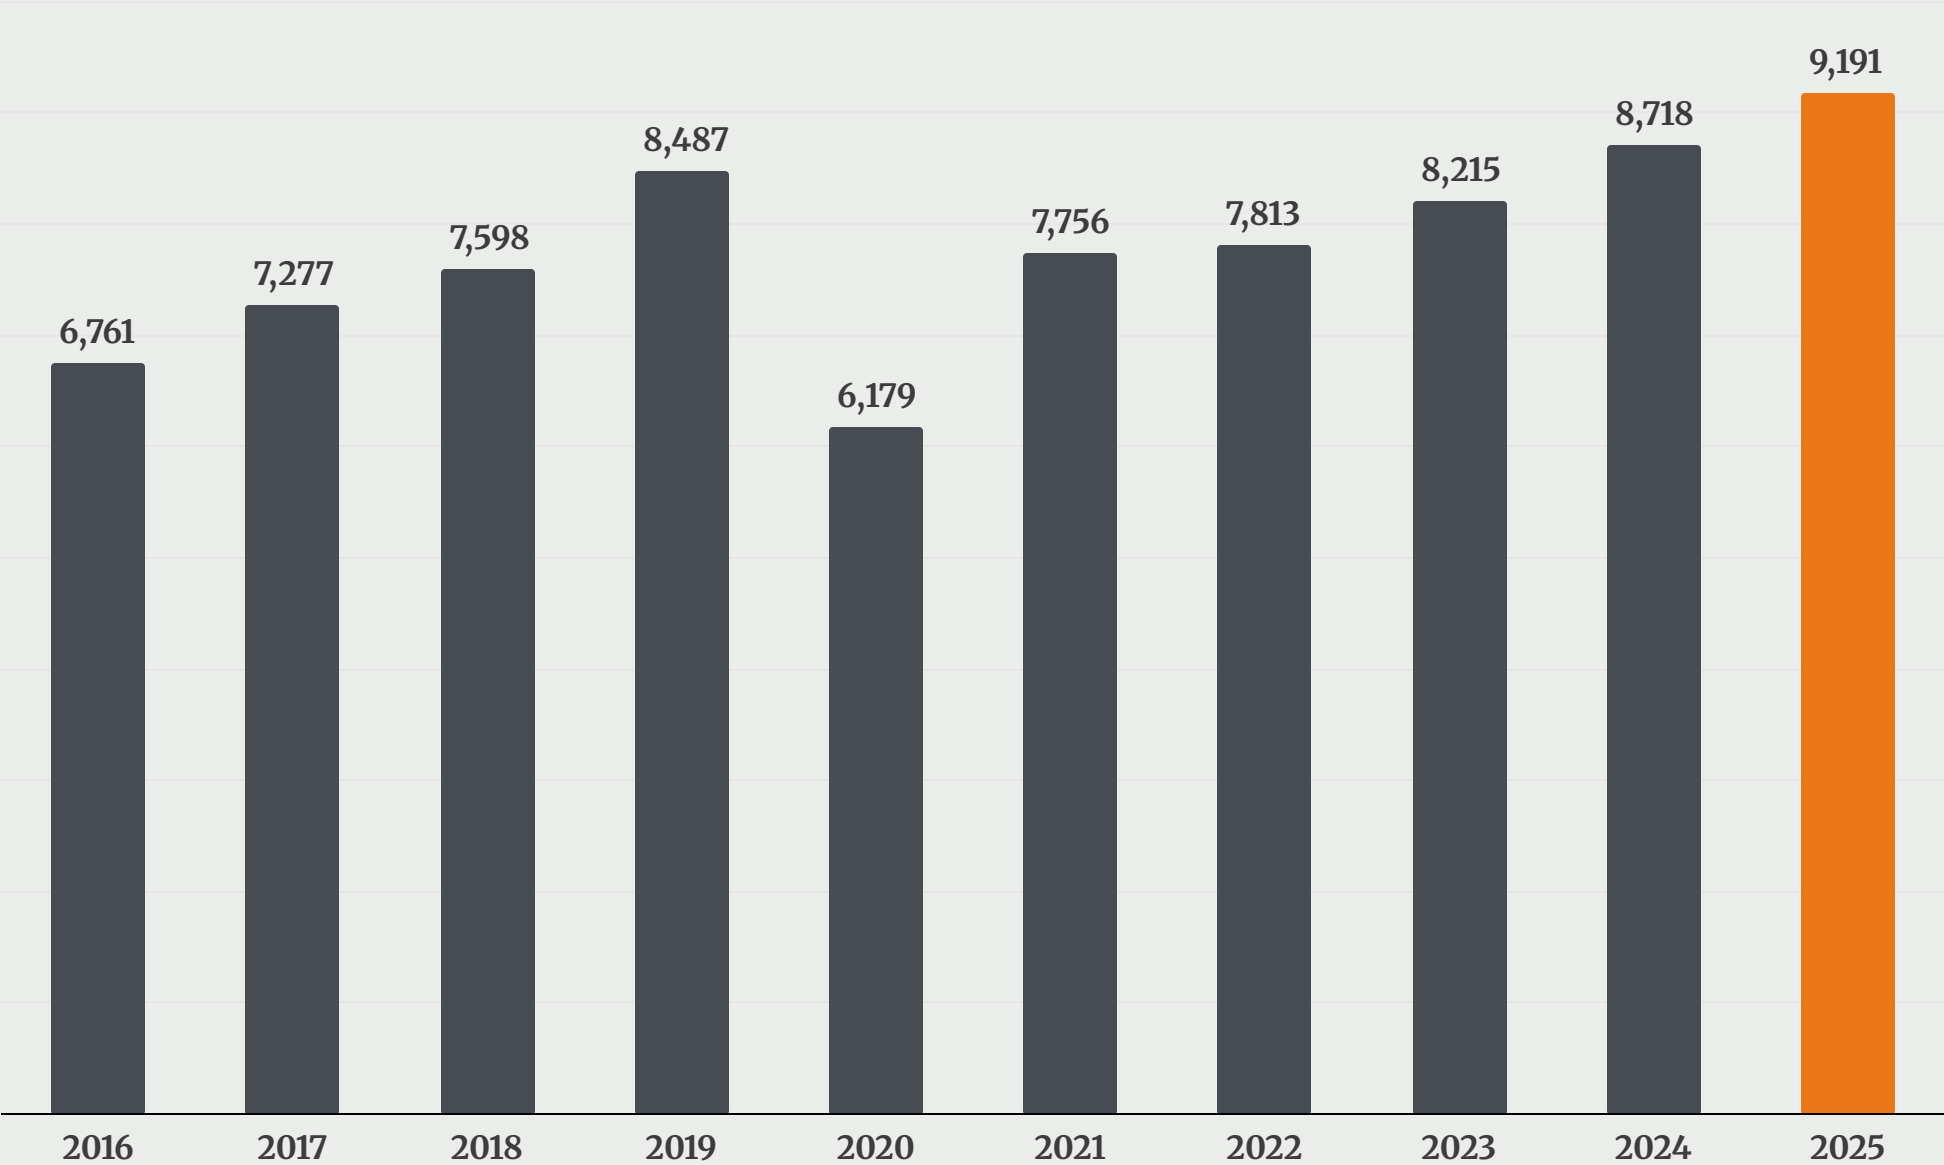

FOCUS: EPPP

Focusing on the Examination for Professional Practice in Psychology (EPPP)[®], which is developed and owned by ASPPB since 1963. The EPPP is provided to state and provincial boards of psychology to assist in their evaluation of the qualifications of applicants for licensure and certification.

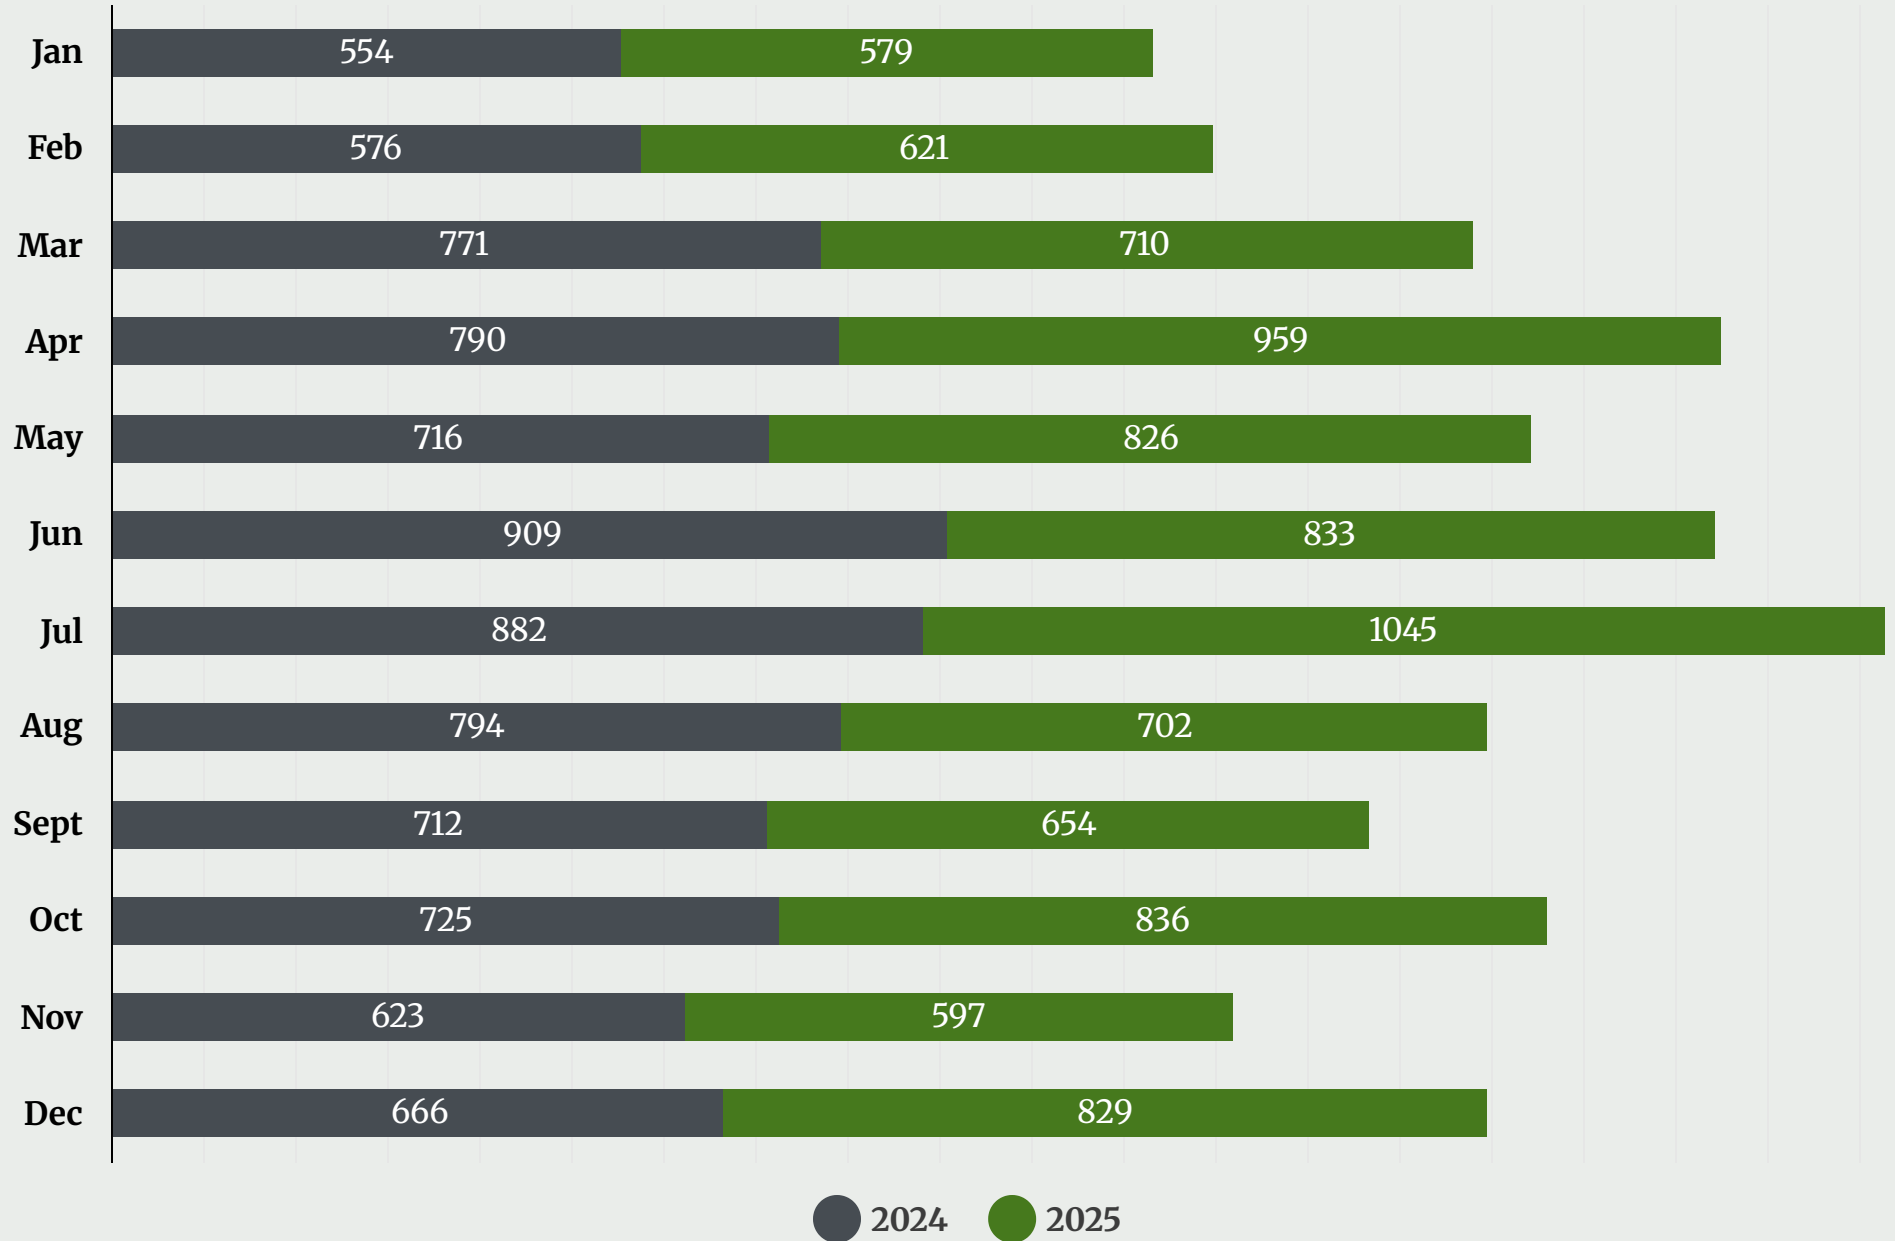

Total EPPP's Administered Per Year (Past 10 Years)

Candidates who sit for the EPPP must first be approved by a psychology licensing board. Between 1965 and 1978, the EPPP was administered on a rolling basis. This changed between 1979 and 2001, when the EPPP was administered twice per year, once in April and once in October. Since 2001, the EPPP has returned to being administered on a rolling basis.

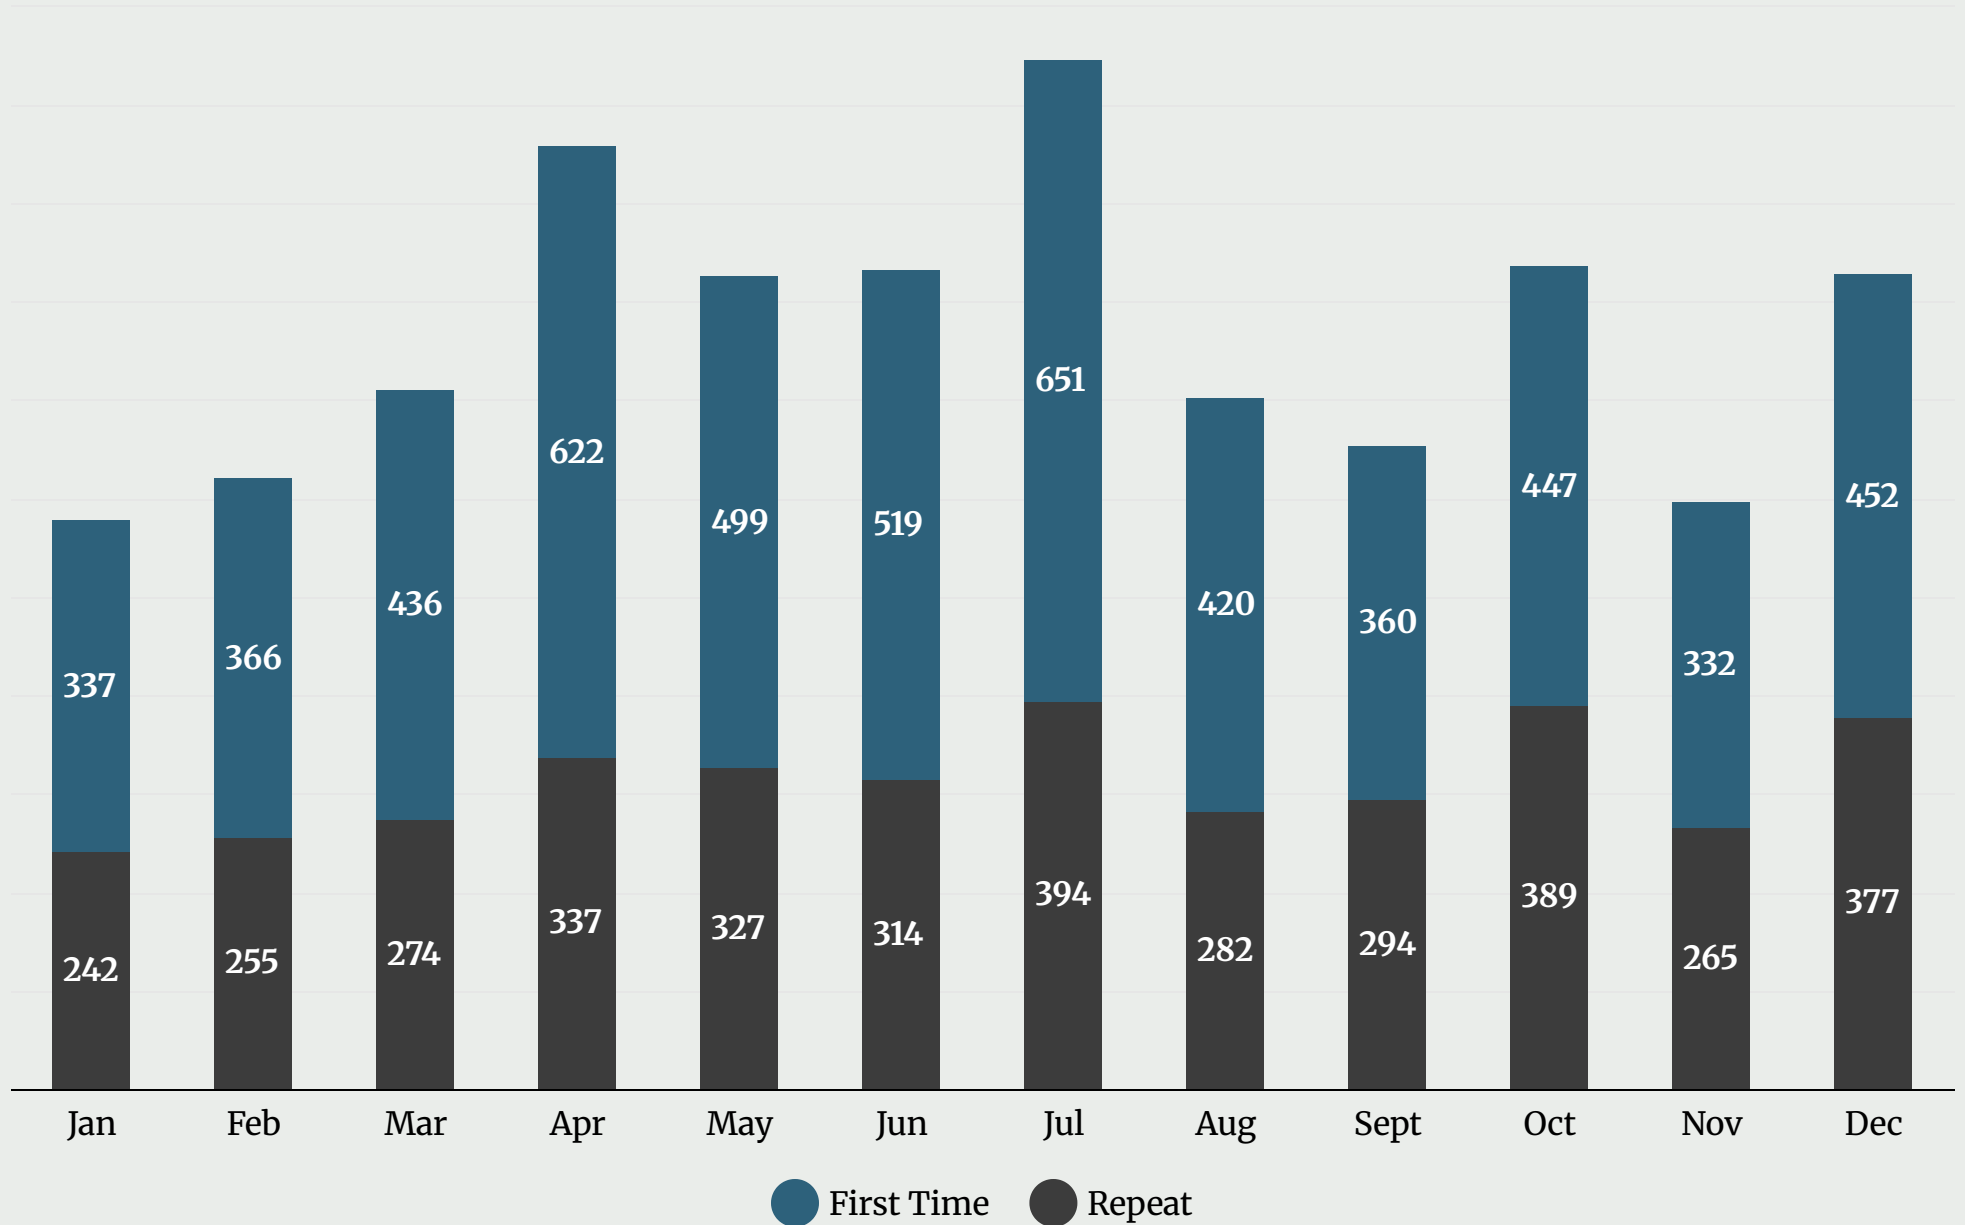

Number of Exam Candidates Tested (Monthly Comparison 2024 vs 2025)

The comparison below illustrates year-over-year trends in EPPP candidate testing activity across each month of 2024 and 2025.

First Time and Repeat EPPP Takers (2025)

If a candidate's score does not meet their licensing authority's requirement for licensure, they may re-apply to take the EPPP by contacting their psychology licensing board.

Spotlight

- As part of the collection of ASPPB membership dues, psychology licensing boards are surveyed regarding the number of licenses they maintain and issue. Data for 2025 is not available for the following jurisdictions: District of Columbia, Guam, Indiana, Maine, New Hampshire, and Saskatchewan. Data from 2024 is included for the following jurisdictions: Florida, Georgia, Hawaii, and Wisconsin.
- The American Psychological Association (APA) is a scientific and professional organization that represents psychologists in the United States.
- The Canadian Psychological Association (CPA) is the national association for the science, practice, and education of psychology in Canada.

Snapshot

- Pennsylvania: Predoctoral internship is a part of the APA-accredited doctoral program. The predoctoral internship is automatically accepted as satisfying 1 of the 2 years of supervised experience.

Focus | PSYPACT

- Data in this section comes from the PSYPACT Commission.
- Data presented regarding PSYPACT is current through December 31, 2025. For the latest information, please visit www.psypact.gov.

Focus | Examination for Professional Practice in Psychology (EPPP)

- Data in this section comes from the ASPPB Examinations Division's archives.

Focus | Disciplinary Data System (DDS)

- Data in this section comes from the ASPPB Disciplinary Data System.
- The number of reported reasons in a report may change based on the date of discipline taken and not the date reported to ASPPB.

Appendix B | Survey Questions/Responses (Continued)

Q31. If yes, please explain.

- Alabama: Submission of a new application is required with the current Fee and updated professional reference providers.
- Alberta: After the maximum failed attempts and the 5-year provisional registration has expired, they are moved to the canceled register. They can reapply as a new applicant after 5 years from the date of cancellation. This means they would have to start at the credentials evaluation phase.
- Mississippi: Request to the Board for assignment to retake, no sooner than 2 months after the prior attempt.
- Missouri: Complete a new application and submit the required documents.
- Nevada: They have to reapply for licensure because their application would have been denied based on their failure to pass the EPPP within 4 attempts.
- New Brunswick: After 3 failed attempts at the EPPP, candidates must satisfy all conditions that may be set forth by the Registration Committee, including but not limited to requiring the temporary member to take additional training prior to re-examination.
- Ohio: You can retake the exam after 30 days from your last attempt. If you fail three times in a row, you must wait six months before trying again. If you fail the exam nine times total, you are no longer eligible to take it again in Ohio. Your application will be permanently closed.
- Oklahoma: Re-examination. If either of the two component examinations is failed a total of four times, the application process shall cease. The former applicant may reapply for licensure by submitting a new application for consideration by the Board in accordance with the requirements to become licensed as a psychologist.
- Ontario: After 4 unsuccessful attempts. Candidate must obtain Registration Committee approval of a remediation plan in order to be permitted to attempt EPPP again.
- Pennsylvania: Pay the re-exam fee to the Board and provide any updated documentation if applicable.
- Prince Edward Island: No Provision for taking the EPPP after the time frame has expired
- Puerto Rico: Regardless of the exam taken by the candidate (PR exam or EPPP), he/she has to take remedial courses after failing 5 times.
- Texas: An applicant whose application is denied under this rule may reapply for licensure but will not be allowed or approved to sit for the exam again until the applicant has submitted a detailed study plan designed to address the known or suspected areas of deficiency.
